

LCD TVs FROM TPV TECHNOLOGY

THE NAUTILUS LCD TVs FOR THOSE WHO INTEND TO UPGRADE FROM A CRT TO LCD TV

TPV India has launched AOC-branded LCD TVs in India. The Nautilus series LCD TVs come in a stylish, high-gloss piano finish with an attractive red-and-black-coloured bezel and are available in full-HD and HD-ready formats, with a dynamic contrast

ratio of 50,000:1, giving an amazing picture quality. Other features include surround sound, real colour engine, USB Cinema and HDMI input. The USB hub present on the side makes it very easy for users to connect their other audio-video gadgets.

NOTEBOOK WITH LONG BATTERY BACKUP

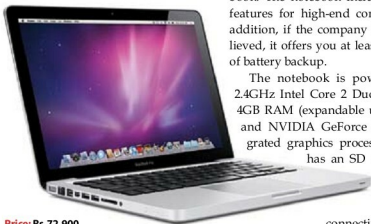

THE UPGRADED VERSION OF APPLE 33CM MACBOOK PRO NOTEBOOK CLAIMS TO PROVIDE AT LEAST TEN HOURS OF BATTERY BACKUP

Looking for a notebook that lets you do high-end computing on-the-

fly? Apple has launched an upgraded version of its 33cm MacBook Pro notebook. The notebook includes several features for high-end computing. In addition, if the company is to be believed, it offers you at least ten hours of battery backup.

The notebook is powered by a 2.4GHz Intel Core 2 Duo processor, 4GB RAM (expandable up to 8 GB) and NVIDIA GeForce 320M integrated graphics processor. It also has an SD card reader slot and Wi-Fi and Bluetooth

connectivity.

Price: Rs 72,900

WI-FI-ENABLED HD MEDIA PLAYER

ASUS O!PLAY AIR HDP-R3 STREAMS MEDIA WIRELESSLY FOR LIVELY ENTERTAINMENT

Price: Rs 10,500 (excluding taxes)

ASUS has unveiled the O!Play Air HDP-R3 HD media player that enables you to access all your digital content from various sources wirelessly. The player streams a wide variety of audio, photo and high-definition video formats from PCs, NAS, card readers and other USB or eSATA-connected devices. Formats supported include MPEG1/2/4, H.264, VC-1 and the popular RMVB. Additionally, the HD media player delivers up to 1080p full-HD image rendering.

The built-in card reader slots allow you to access digital files and photos effortlessly from CompactFlash and Secure Digital cards, or Memory Sticks (MS/MS Duo), enabling you to view digital photos instantly.

You simply need to insert your memory card into the O!Play Air HDP-R3 to automatically display your photos. At the same time, you will be prompted on whether you want to save your photos into another storage device. Intuitive photo management features let you sort your pictures by date and easily search for images.

By supporting the 802.11n wireless networking standard, the HD media player is capable of stable and rapid wireless data transfers at maximum throughputs of 600 Mbps.
