Multimedia Software

I have been a regular reader of EFY since my school days and an admirer of EFY for its adherence to maintaining exceptional quality and ethics. I suggest you to:

1. Include in the EFY-CD some multimedia related software (audio/video editing software, various free-ware, converters, etc) on regular basis.

2. Publish articles or circuit ideas on alternative energy sources like Seebeck Effect, cheaper or homemade solar cells, and fuel cells.

Gautam Kumar Mandal
Addl Chief Industrial Engineer
Durgapur Steel Plant (SAIL)

Durgapur

EFY: Thanks for the feedback and suggestions. Under 'Utilities' and 'Popular Repeats' sections of every issue of the CD, you can find many useful multimedia applications and other free software. For example, in October issue you will find multimedia software like iTunes, JetAudio, Kantaris, MediaPortal, XBMC Media Center, Songbird and VLC media player. You will find many more multimedia software in this issue, some of them having better features than the previous ones.

Storage Networking

I want to know more about storage networking and their protocols. So please publish articles on topics like small computer system interface (SCSI) and serial-attached SCSI (SAS).

Manoj Kumar
Nellore

Wireless Projects

Please publish more of PC-based wireless circuits. I was really impressed by the 'PC-based Wireless Control for Toy Car' project published in September issue. Is there any good book on this topic?

Bhupendra B.K.
Lalitpur, Nepal

EFY: You may refer to the following projects published in EFY:

1. 'PC-Based Wireless Appliance Control' in *EFY July 2009*
2. 'PC-based Wireless Stepper Motor Control' in *EFY March 2009*

EFY Circuits

Do you have any of the following circuits:

1. Automatic battery charger
2. Automatic bright white LED-based emergency light
3. Automatic room power-on/off switch

Milind D.

LG Electronics India Pvt Ltd
Through e-mail

EFY: You may refer to:

1. 'Automatic Battery Charger' published in *EFY April 2008*
2. 'Ultra-High Bright White Light' published in *Electronics Projects Vol. 24*
3. 'Automatic Room Power Control' published in *Electronics Projects Vol. 20*

All the above-mentioned issues can be purchased from EFY associates Kits'n'Spares, New Delhi (phone: 011-26371661, e-mail: kits@efyindia.com).

FM transmitter

I need an FM transmitter circuit. Please tell me the EFY issue in which this circuit was published.

Fritze
Thrissur

EFY: 'Long-Range FM Transmitter' circuit was published in *Electronics Projects Vol. 20*. The complete kit of this circuit is also available from Kits'n'Spares.

Voltage Stabiliser

In the 'Voltage Stabiliser Using PIC-16F877A' project published in August issue, we have the following doubts:

1. What is the correct value of C5: 10 μ F or 1 μ F? Its values in the PCB layout and schematic are different.
2. Capacitor C6 at the output terminals of transformer X2 in Fig. 2 is not shown in the PCB layout on page No. 70.
3. As per Fig. 3(c), the sine wave should be out of phase. But on the scope, it is showing a phase shift of 90 degrees.

Piyush Garg
Managing Director, PACT
Through e-mail

☐ In this article, it is not clear:

1. Whether the output of the stabiliser is distorted sine wave or pure sine
