

Want to make exciting projects yourself?

Worried about the quality of project, sourcing of components and technical support? **PROBLEM SOLVED!**

Kits'n'Spares
For the 'engineer' in you

Offers

100 Minor Project Kits

Sanguino Kit

Rs. 1990/-
Sanguino Board FTDI USB Break out Board
9V DC Adapter - 1 amp USB Cable
Double-sided Relimate - 6 Pin (to connect Sanguino to FTDI Breakout board) Software CD (Datasheet + Software for Windows and Linux + Java Runtime Engine + USB Drivers)

Freeduino USB Kit 168

Rs. 1950/-
Freeduino USB board with ATmega8 or ATmega168 or ATmega328p - 9V DC Adapter - 1 amp - USB Cable
• Software CD (Datasheet + Software for Windows and Linux + Java Runtime Engine)

50 Major Project Kits

Cellphone Based Device Control with Voice Acknowledgement

Rs. 1000/-

If you forgot to switch off the lights or other appliances while going out, don't worry this device will help you to turn off the appliance with your cellphone. Now your cellphone will work as the remote control for your home appliances.

Microcontroller based solar lighting system

Rs. 2500/-

The aim of this circuit is to demonstrate how you can utilize solar light for lighting applications. You can also store the energy for further use also.

30 Robo Kits

IBOTS

Rs. 2999/-

• It can be used as obstacle detector • It gives digital logic output. • It can be wireless or wired robot. • We can use different type of sensors like fire sensor, sound sensor etc

Remote-Controlled Land Rover

Rs. 3000/-

Make a land rover robot that can be remotely instructed to perform simple functions like move forward, backward, right and left through an appropriate push-button switch on the remote control

Development Boards

AVR Development Board Rev.1.2

Rs. 1199/-

• Can be used with ATMEGA 16 microcontroller. • On Board Voltage Regulator with filters and operating voltage from 6V- 12V. • Interfaced LEDs • In built motor driving circuitry (4 DC / 2 Stepper motor). • On board LCD connector.

Programmers

Microcontroller Trainer-8051

Rs. 3000/-

It is development board for beginners in field of embedded systems and microcontroller. It includes Sound Sensor Light Sensor Memory module Real time clock Wireless communication module Dot Matrix Display, Ultrasonic distance sensor Accelerometer Temperature Sensor.

OFFER of the month

- ☒ Order projects kits for Rs 6000/- or more and win 1-year subscription to EFY with CD and Electronics Projects Vol. 24 & 25
- ☒ Order projects kits for Rs 4000/- or more and win 1-year subscription to EFY with CD
- ☒ Order projects kits for Rs 3000/- or more and win latest Electronics Projects Vol. 25
