

One great instrument deserves another. And another. And another...

The legendary performance and ease-of-use you expect from our oscilloscopes are now available for your entire bench. Introducing the first fully integrated set of

test bench instruments from Tektronix designed to streamline testing and offer unparalleled connectivity, accuracy and usability. From shortcut keys for common functions to USB ports for quick data export, every Tektronix instrument is built to maximize measurements and minimize inefficiency. Plus, all bench instruments come with National Instrument's LabVIEW SignalExpress™ software, so you can automate measurements, analyze data across multiple instruments and control your entire bench from your PC. Performance, usability and connectivity. Now available for your entire test bench.

Oscilloscopes

- 2 or 4 analog channels
- Up to 25 automated measurements
- Battery operation available

Mixed Signal Oscilloscopes

- Up to 4 analog and 16 digital channels
- Parallel and serial bus automated analysis
- Wave Inspector™ for fast navigation of data

Arbitrary/Function Generators

- 1 or 2 channels
- 12 standard waveforms
- Arbitrary waveform capability

Digital Multimeters

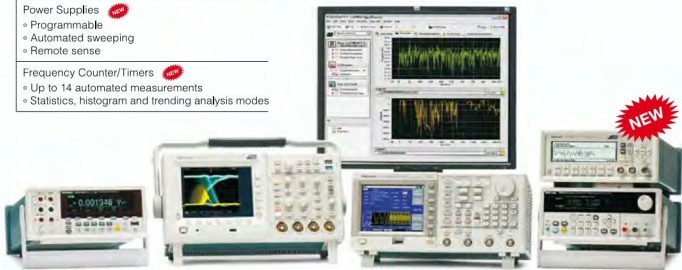

- Up to 11 automated measurements
- Statistics, histogram and trending analysis modes

Power Supplies

- Programmable
- Automated sweeping
- Remote sense

Frequency Counter/Timers

- Up to 14 automated measurements
- Statistics, histogram and trending analysis modes
