

INTERACTIVE PROJECTOR

THE BenQ MP780ST ALLOWS USERS TO POINT, DRAW AND CREATE IMAGES ON ANY SURFACE

Price: ₹ 110,000

BenQ has unveiled the MP780ST short-throw WXGA DLP projector. A PointDraw system with interactive pen distinguishes the MP780ST by eliminating the costs and hassles of buying a separate interactive board and speakers, maximising usage of valuable classroom wall space.

Unlike other interactive pen systems, the BenQ PointDraw does not require any calibration between the system and the projected screen. Simply connect the MP780ST to a notebook or desktop computer and get ready to point, draw and create

on any plain surface—no whiteboard or screen needed.

The MP780ST and PointDraw system are compatible with any operating system that supports a standard USB mouse and enables easy big-screen display, integration, and sharing of virtually any software or digital content viewable on a computer monitor. The PointDraw pen features a button that works the same as the 'left' button on a mouse, and therefore allows you to perform the same functions. And for true freedom of movement, it lets you doodle up to eight metres away from the projected surface. Teachers can even record entire lessons that were drawn or written with the PointDraw pen.

ULTRA-LIGHT HEADPHONES

SKULLCANDY'S ICON 2 HEADPHONES HAVE AN INBUILT MICROPHONE

Redefine style and fun with Skullcandy's Icon 2 on-ear headphones. Available in trendy colours and exciting designs, the Icon 2 collection offers interchangeable earpieces for a more personalised experience.

DIGITAL PHOTO FRAME

CHERISH YOUR SPECIAL MOMENTS WITH AFFORDABLE SONY DPF-A710

Price: ₹ 3990

Sony India has launched a digital photo frame priced at Rs 3990 only, breaking the price barrier for many consumers and reaching out to masses. The 17.8cm (7-inch) display of the DPF-A710 lets you relive your favourite moments in eye-popping colour with crisp detail. The screen's 480×234 resolution and 16:10 aspect ratio offer a picture quality that brings images to life. The 128MB internal memory can store up to 250 pictures, making enough room for many memorable events. The frame can be connected to a computer with a USB cable for quick and easy transfer of photos. It is compatible with Memory Stick, SD and MMC memory cards.

The frame weighs 344 gm (with AC adaptor) and has dimensions of 20.2×14.1×2.6 cm³. Supplied accessories include AC adaptor, wireless remote and stand. The LED-backlight helps save energy.
