

Want to make exciting projects yourself?

Worried about the quality of project, sourcing of components and technical support? **PROBLEM SOLVED!**

Kits'n'Spares
For the 'engineer' in you

Offers

100 Minor Project Kits

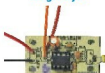

Electronic Bicycle Lock

Rs. 175/-

The electronic bicycle lock described here is a worthwhile alternative for bicycle owners who want to make their bicycles 'intelligent' at reasonable price.

Magic Eye

Rs. 100/-

This magic eye fitted on the bottom of door entrance obviates the need for a call bell. It can also be used as an automatic guest indicator at homes or as a burglar alarm in banks.

50 Major Project Kits

Microcontroller Based Tachometer

Rs. 550/-

This is an easy-to-make photoelectric tachometer project for measuring the RPM (revolutions per minute) of rotating shaft, shop-floor tools and many household machines without any mechanical or electrical interface.

Microcontroller Based Solar Charger without Panel

Rs. 3200/-

This AT89C2051 microcontroller-based solar charge controller has built-in digital voltmeter for battery status indication on the LCD with various battery protection controls. This controller is suitable for 10-40W solar panels.

30 Robo Kits

Hexapod - Six-legged robot

Rs. 6000/-

Learning includes using DC geared motor and servo motor controlling and deciding robotic kinematics for better operation

Remote-Controlled Land Rover

Rs. 3000/-

Make a land rover robot that can be remotely instructed to perform simple functions like move forward, backward, right and left through an appropriate push-button switch on the remote control

Development Boards

Microcontroller Development Board - 8051

Rs. 3000/-

8051 development board provides an easy-to-use and low-cost way to develop your 8051 based microcontroller projects, without purchasing any other special equipment, such as IC programmers or emulators. All required software is available as a free download, including a C compiler

Programmers

8051 Microcontroller Programmer - USB

Rs. 2000/-

A powerful yet low-cost tool for programming most widely used 8051 microcontrollers. With USB communication and easy GUI, microcontroller programming has been made simpler than ever before.

Supported Microcontrollers: AT89C51/52/55

OFFER of the month

- ☒ Order projects kits for Rs 5000/- or more and win 1-year subscription to EPY with CD and Electronics Projects Vol. 24 & 25
- ☒ Order projects kits for Rs 3000/- or more and win 1-year subscription to EPY with CD
- ☒ Order projects kits for Rs 2000/- or more and win latest Electronics Projects Vol. 25

YES, I would like to buy _____ Name _____ Mailing Address _____
 _____ City _____ Pin Code _____ Phone _____
 Email _____ Please find enclosed a sum of ₹ _____ by Cheque/DD/ bearing the No. _____
 dt. _____ in favour of Kits'n'Spares, payable at New Delhi or charge my credit card ☐ VISA ☐ MasterCard Please charge ₹ _____
 against my credit card No. _____ Date of Birth ____/____/____ (dd/mm/yyyy) Card Expiry Date ____/____/____ (mm/yyyy)

Send this filled-in form to: D-88/5, Okhla Industrial Area, Phase 1, New Delhi 110020 | Phone: +91-11-26371661 | E-Mail: info@kitsnspares.com | Website: www.kitsnspares.com
