

HD DVR SET-TOP BOX

RELIANCE BIG TV BRINGS A HIGH-DEFINITION DIGITAL VIDEO RECORDER AT ROCK-BOTTOM PRICE

Price: ₹ 4990

On the onset of festival season, OATH TV service provider Reliance BIG TV has come up with a high-definition digital video recorder (HD DVR) that not only allows HD viewing but also records your favourite shows in HD.

The Reliance Big TV HD DVR is

claimed to record up to 200 hours of video programming, offering double the recording capacity of competing products in the market, five times

clearer and sharper image quality with two-million pixel resolution, and digital surround sound effect. The digital video recording features include pause, play and rewind Live TV, and record Live TV to allow you to record a programme while watching another channel.

VERTICAL-ALIGNMENT LED MONITORS

BenQ's EW AND VW SERIES ARE A TREAT TO WATCH FROM ANY ANGLE

Price:
VW2420: ₹ 19,990
EW2420: ₹ 21,990

BenQ claims to have launched world's first vertical-alignment (VA) LED monitors—the EW and VW series. The lineup of the 16:9 Full HD VA-panel LED monitors includes 61cm (24-inch) EW2420, 61cm VW2420(H) and 54.6cm (21.5-inch) VW2220(H). With a wide viewing angle of 178°/178°, true 3000:1 native contrast ratio and BenQ's proprietary

Senseye human vision technology—all on a true 8-bit panel—these VA LED monitors significantly enhance the viewing pleasure.

The panels have better contrast and detail in dark-coloured movie scenes. Wider viewing angle (178°/178°) means you can share the monitor across the room with more people, sitting wide apart.

NOTEBOOK WITH POWERFUL GRAPHICS

FUJITSU'S LIFEBOOK AH530 WITH EXTERNAL GRAPHICS AND FAST PROCESSOR PROVIDES HIGH PERFORMANCE AT A COMPETITIVE PRICE

Price: ₹ 43,990 plus taxes

Fujitsu LIFEBOOK AH530 GFX users experience the power of external graphics for demanding graphics applications and video, thanks to the on-board ATI Mobility Radeon HD550v graphics with a dedicated 1GB video memory. You can choose between a Blu-ray Disc drive and a DVD-drive.

The notebook is equipped with the new Intel Core processor that delivers smart performance adapted to user needs, for a faster and more responsive user experience. Just like the standard LIFEBOOK AH530, the GFX model features a 39.6cm high-definition glossy LCD in wide-screen format, and an HDMI output for viewing content on an external display.

The notebook has a slim design and comes in two stylish colours: glossy black and ink blue. Designed for function as well as style, its keypad is resistant to spills.
