

ELECTRONIC DIARY

eDiary BRINGS EASE OF HANDWRITING TEN PAGES WITH FEATURES OF DIGITAL CONTENT MANAGEMENT

need for typing or looking for a source to charge the laptop.

The eDiary comes with a standard B5-sized paper notebook fitted with a small base unit placed on the top-margin and a special electronic pen (e-Pen). The ePen functions as any normal writing instrument with a normal changeable refill and has additional electronics that works with the base unit to capture the handwriting strokes. The eDiary has built-in memory to save up to 100 pages of written notes at a time, which can later be downloaded to a PC with the help of USB cable. Weighing only 40 gm more than a regular diary of similar size, it is easy to carry in a handbag, knapsack or briefcase.

Bluetooth music receiver for iPhone and iPod

Belkin now offers a Bluetooth music receiver for music lovers and iPhone/iPod Touch users who would like to listen to music at home through an existing set of speakers or home theatre system. Normally, you have to connect an iPod, smartphone or MP3 player to it using a direct stereo jack and typically return to the stereo whenever you want to select a new song or adjust the volume. However, with a Bluetooth wireless receiver plugged into your home stereo, you can wirelessly set up the connections from the comfort of your couch and enjoy great stereo sound and playlist control directly from your devices along with the freedom of pairing multiple devices without pressing a single button. It is priced at Rs 2399.

Entertainment Phone

Designed to delight young entertainment enthusiasts and music lovers, the Nokia X2 comes with dedicated music keys and a 3.5mm AV connector, FM radio with built-in antenna, a digital music player and loud stereo speakers for sharing music. Adding to the great music experience is a 5-megapixel camera with flash and a video recorder.

Available at the affordable price of Rs 6579, Nokia X2 is a smart-buy for its combination of great music oriented practical functions, imaging capabilities and trendy design. Specially designed for youths who want to experience great music and lead a very active social life, it offers access to Facebook from the home screen, latest games and apps downloadable from Ovi Store and Nokia Messaging for e-mail and IM.

Samsung unveils new LED monitor

Samsung Electronics has launched the PX2370 LED monitor in India that offers optimised viewing experience with nature-like picture quality, auto adjustable brightness and extended viewing angle. The PX 2370 supports 100 per cent RGB, thereby delivering nature-like picture quality. The Magic Lux function adjusts brightness by sensing the surrounding intensity of illumination for releasing optic stress. Magic Angle offers the same picture quality from any angle and supports five-mode angle management.

Price: ₹ 9350

Hi-Tech Solutions has launched an electronic diary that gives users freedom from lugging heavy laptops by capturing the handwritten pages and storing them in the computer at the click of a button. The eDiary is a simple, smart, sleek and stylish notebook that can be carried by everyone. Costing as little as a mid-end cellphone, it frees the users to write normally (on any paper of their choice) and still be able to store the information digitally. It does away with the

SMARTPHONE JUST FOR NEWBEES
