

TOP 100 ELECTRONICS & IT COMPANIES IN INDIA

Yet again, telecom companies continued to top this list. As many as five telecom companies managed to figure in the top ten of FY2009-10. Bharti Airtel continued to be the largest telecom company in India, with both its revenues and net profits growing.

Other than Bharti Airtel, Bharat Sanchar Nigam Ltd (BSNL), Tata Consultancy Services, Wipro, Infosys, Reliance Communications, Nokia, Vodafone Essar and Redington too continued to be in the top ten. BSNL, though, reported a huge loss of Rs 18,230 million in profit. MTNL, another government-owned telephone service provider, also incurred heavy losses.

Among electronics companies, LG Electronics made a surprising entry into top ten, climbing up to tenth position from 14th last year. Samsung India too jumped three places above to rank 16th. Bharat Electronics Ltd (BEL) moved up to rank 18th. Videocon, on the other hand, slipped to 15th from 13th last year.

Looking at the new entries, it is clear that electronics companies are starting to penetrate the list that is dominated by telecom and IT companies. New entries include Micromax, Infinite Computer Solutions (India), Cambridge Solutions, Micro Technologies (India), Halonix (formerly known as Phoenix Lamps), RamaKrishna Electro Components, Nippo Batteries, MIC Electronics, TVS Electronics and Vindhya Telelinks.

Bharti Teletech, Hewlett-Packard India, Sony India, Agilent Technologies, Cisco Systems, Dell India, EMC India, IBM India, Huawei Technologies India and ZTE could not be featured in the list as they chose not to disclose their revenues.

The Top 100 is compiled using information sourced directly from the companies or their balance sheets published on websites like BSE. The consolidated revenue figure for the current financial year has been the key ranking determinant. As gross turnover may not be the ideal reflection of a company's performance, effort has been made to provide profit figures as well.

We solicit suggestions to make this report even better in the coming years.
