

BHARTI AIRTEL LTD

Rs 418,295 mn (2009-10)

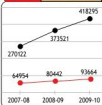

Bharti Airtel, a global telecom company with operations in 19 countries across Asia and Africa, is structured into four strategic business units: mobile, telemedia, enterprise and digital TV. It had over 186 million customers across its operations at the end of July 2010. In the largest ever cross-border deal in emerging markets, Bharti Airtel recently completed the acquisition of Zain Group's mobile operations in 15 countries across Africa for an enterprise valuation of \$10.7 billion. In January this year, the company created a new international business group responsible for expanding its operations beyond India and South Asia region. Bharti Group's Bestel recently launched eight handsets in the price range of Rs 1750-7000. These new phones offer dual SIM support, FM radio and camera.

BHARAT SANCHAR NIGAM LTD (BSNL)

Rs 320,450 mn (2009-10)

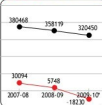

Established in October 2000, state-owned telecom operator Bharat Sanchar Nigam Limited (BSNL) provides a comprehensive range of telecom services that include wireline, CDMA mobile, GSM mobile, Internet, broadband, carrier service, MPLS-VPL, VSAT, VoIP services and IT services. In July this year, BSNL chairman and managing director Kuldeep Gopal retired after a three-year stint at the telecom major. After his retirement, Gopal Das has taken charge of the firm as acting chairman and managing director. BSNL reported a loss of Rs 18,230 million in 2009-10—first-ever in the company's history. The loss was mainly due to reduced revenue from landline services along with a higher payout to employees because of the award of the Sixth Pay Commission for government employees. The loss, however, coincided with a distinction of BSNL achieving mobile subscriber base of 100 million.

RELIANCE COMMUNICATIONS LTD

Rs 221,323 mn (2009-10)

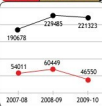

Reliance Communications, the flagship company of the Reliance Anil Dhirubhai Ambani Group, positions itself as India's largest private-sector information and communications company with a customer base of over 117 million. It has established a pan-India, high-capacity, integrated (wireless and wireline), convergent (voice, data and video) digital network to offer services spanning the entire communications value chain covering over 24,000 towns and 600,000 villages. The boards of Reliance Communications and its subsidiary Reliance Infratel Limited and GTL Infrastructure recently approved the Rs 500 billion deal to create the world's largest independent telecom infrastructure company, neither owned nor controlled by any telecom operator. This transformational deal will be implemented through a demerger of Reliance Infratel's tower assets into GTL Infrastructure.
