

NOKIA INDIA PVT LTD

Rs 191,917 mn (2009-10)

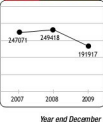

Nokia, the world's largest handset maker, commenced its India operations in 1995. The company's India operations comprise its handset business, R&D facilities in Bengaluru and Mumbai, a manufacturing plant in Chennai and a Design Studio in Bengaluru. In January, Finland-based Nokia made walk and drive navigation free on its smartphones as part of a new version of Ovi Maps. It is now planning to 'massify' push e-mail services, which are at present available only in high-end smartphones such as Blackberry and iPhone. The company intends to enable Nokia Messaging for handsets sold for as low as Rs 2,700. It recently forayed into the dual-SIM mobile phone segment with the launch of two new handsets—a move aimed at strengthening its market share in India.

REDINGTON (INDIA) LTD

Rs 137,711 mn (2009-10)

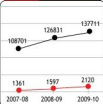

Redington (India) along with its subsidiaries is in the business of end-to-end supply chain management of IT and non-IT products in various potential geographies of South Asia, Middle East and Africa. With a large distribution network and a market penetration of more than 18 countries, Redington is amongst the largest supply chain solution providers to over 75 leading manufacturers worldwide. The company recently tied up with Imlon India for distribution of their storage media products. Earlier in April, LG appointed Redington as a distributor of its mobile phones in the southern state of Tamil Nadu. The company expects turnover of about Rs 1500 million to Rs 1800 million in the year ended March 2011 from sales of LG mobile phones.

IDEA CELLULAR LTD

Rs 124,471 mn (2009-10)

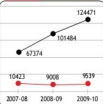

Idea Cellular, an Aditya Birla Group company, is a pan-India integrated GSM operator with over 70 million subscribers. Under brand IDEA, the company covers the entire telephony landscape of the country, and has national and international long-distance operations. The group operates in 25 countries and is anchored by over 130,000 employees belonging to 30 nationalities. Idea recently opted for Subex' Revenue Operations Center (ROC) solution to address its interconnect billing and reconciliation needs. The solution will be implemented through IBM, which is Idea's IT outsourcing partner. IBM has so far been supporting Idea's interconnect billing and reconciliation needs through a bureau service. These requirements are now planned to be catered through Subex solution deployed in-house.

VODAFONE ESSAR LTD

Rs 188,849 mn (2009-10)

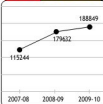

Vodafone Essar is the Indian subsidiary of Vodafone Group and commenced operations in 1994 when its predecessor Hutchison Telecom acquired the cellular licence for Mumbai. The company now has operations across the country with over 111.47 million customers. Dismissing Vodafone's petition against a claim made by the tax department, the Bombay High Court recently ruled that the company must pay capital gains tax on its \$11-billion acquisition of a majority stake in Hutchison Essar in 2007. A few months ago, the IT department sent a letter to Vodafone, slapping a tax bill of Rs 120 billion. Vodafone, however, remains confident that this transaction is not taxable in India and would appeal against the decision in the Supreme Court shortly. The decision is being closely watched globally because it is the first of its kind and can affect other MSA transactions between offshore entities with underlying assets in India.

LG ELECTRONICS INDIA PVT LTD

Rs 130,890 mn (2009)

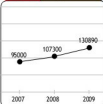

LG Electronics India, a wholly owned subsidiary of LG Electronics, South Korea, was established in January 1997 in India. It is a well-known brand in consumer electronics, home appliances, IT hardware and mobile communications space. The company is planning to establish a new plant in the South to boost its design activities and India-specific research. With an investment of \$300 million, the new plant would be set up in any of the southern states depending upon the cooperation of the state governments. Fuelled by the rising demand for consumer durables in Asia, the firm is all set to more than double its capacity to manufacture GSM phones at its Ranjanagar facility near Pune.

HCL INFOSYSTEMS LTD

Rs 121,586 mn (2009-10)

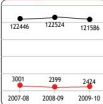

Established in 1976, HCL Infosystems positions itself to be one of India's premier hardware, services and ICT system integration companies. It offers a wide spectrum of ICT products that include computing, storage, networking, security, telecom, imaging and retail. The company claims to have India's largest vertically integrated computer manufacturing facility with over three decades of electronics manufacturing experience. In February this year it unveiled a PWC-free HCL ME Series 40 notebook, designed and manufactured with materials free of harmful chemicals. Strengthening its global presence, HCL Infosystems recently announced the buyout of 60 per cent stake in NTS Group—an IT services and solutions company based in Dubai.
