JCT ELECTRONICS LTD

Rs 4866 mn (2009-10)

JCT Electronics Limited (JCTEL) is a flagship company of the Thapar Group—one of India's largest industrial conglomerates. It was the first colour picture tube (CPT) manufacturer in India. JCTEL has two plants—one at Mohali (near Chandigarh) in Northern India and the other at Karjan (near Vadodra) in Western India, with a combined capacity to manufacture 5.2 million CPTs. The Mohali plant has a capacity of 1.2 million CPTs per annum and produces 51cm (20-inch) conventional CPTs only. It was set up in technical collaboration with Hitachi 1986. The Karjan plant commenced production in 1996 and has a capacity of 4.00 million CPTs.

MICRO TECHNOLOGIES (INDIA) LTD

Rs 4610 mn (2009-10)

Micro Technologies (India) is an IT company and developer, manufacturer and marketer of security devices for its clients across the globe. Product lines include security devices, lifestyle and support systems, and Web-based software. To accelerate its expansion drive further, this year, Micro Technologies partnered with Advantech Global (AIGlobal), a firm based out of Brussels. This strategic alliance will foster growth for both the counterparts as well as ensure improved security solutions for the regions. Micro Technologies aims at product diversity in various segments of vehicle, premises, mobile, other assets and now energy and health segments. The company won NASCOM's Innovative Products Award for its Wi-Fi security system.

SUBEX LTD

Rs 4631 mn (2009-10)

Subex is a global provider of operations and business support systems (OSS/BSS). The company claims to have pioneered the concept of a revenue operations centre (ROC)—a centralised approach that sustains profitable growth and financial health through coordinated operational control. It has more than 300 installations in over 70 countries. It was named the best supplier in the 'Innovation' category by Swisscom, for its OneFM fraud management solution. Along with key partner IBM India, Subex recently struck a multi-million dollar deal with Idea Cellular to implement its ROC for interconnect billing for the telecom major.

NUMERIC POWER SYSTEMS LTD

Rs 4602 mn (2009-10)

Numeric Power Systems is a manufacturer of uninterruptible power systems (UPS) having a client list that includes banks (for their ATM sites), hospitals and not to mention the home segment (those with computers). It provides a wide range of power conditioning products, addressing the total spectrum of power protection needs, conforming to international standards such as UL/Ce and R&HS compliance. Numeric invested about Rs 1.5 million in its rooftop solar panels, which will generate about 60 kWh a day of electricity. The company has taken up installing rooftop solar panels as a major business initiative, having done over 200 such in India, Japan and Africa.
