Fly launches feature-rich mobile phone

The MC170 mobile phone from Fly Mobile is a sleek and stylish Pandora box priced at Rs 4094. The phone is bundled with a powerful 3MP camera that lets you forget your camera on your next holiday trip. It is also replete with social networking and instant messaging features.

Smart Guard facilitates migration from analogue to IP surveillance

Smart Guard has unveiled a range of IP solutions as well as encoders for migration from analogue to IP surveillance systems. The encoder enables the user to migrate from existing analogue system to IP-based system, at the same time allowing him to add new IP cameras as part of expansion; this is a hybrid system consisting of existing analogue system and new IP cameras.

Lexmark's 4-in-1 monochrome laser printer

Cyberstar Infocom has unveiled Lexmark X204N—a compact, professional 4-in-1 monochrome laser MFP that offers high-quality laser printing, copying and scanning and high-speed standalone fax. It allows users to save time and paper with

features such as scan to email, whereby documents can be scanned and directly e-mailed from the device. It also offers fast and easy copying with 30-page automatic document feeder, PC-free copying and rapid output speeds as fast as 24 ppm.

PORTABLE SCANNER

THE PLUG-AND-PLAY SCANNY FROM PORTRONICS REQUIRES NO COMPUTER AND EXTERNAL POWER TO SCAN

The compact, battery-powered SCANNY scanner from Portronics is shaped like a super-thick ruler. You just need to hover it over the documents that you want to scan, push a few buttons and do the usual left-right motion to capture the objects. The scanner can scan almost any document without connecting to a PC. It can scan an A4-size page up to 600x600 dpi in around ten seconds and a low-resolution scan in black-and-white in less than four seconds.

The scanner is powered by two AA-size batteries and has a microSD card slot that allows you to increase its internal memory up to 32 GB. Once you have scanned your documents, these are saved to the internal

Price: Rs 5999

SD card for transfer via USB. The scanner is compatible with Windows XP SP2, Windows Vista, Windows 7, and Macintosh 10.4 or above. No computer is required for scanning. Using the OCR software coupled with the scanner, you can edit the documents after scanning.

POCKET PROJECTOR
