

Intertek commissions its first electrical laboratory

Intertek, a leading quality solutions provider to industries worldwide, has commissioned its first Electrical Centre of Excellence laboratory for LEDs and batteries in New Delhi. The facility aims to comply with not just the Indian government's regulations for the LED and battery industries, but with international testing standards as well.

Chennai to spend ₹ 1.45 billion on LED lights

Greater Chennai Corp. has sanctioned ₹ 1.45 billion for a project to install 30,000 LED streetlights across the city, after earlier turning down a central scheme that would have meant considerably lower expenses for the civic body. The central scheme works via Energy Efficiency

Services Ltd, a joint venture of four central power sector undertakings, which has installed LED streetlights in many states.

Nagpur to emerge as new investment destination

Within Maharashtra, Nagpur is getting promoted by the government for drawing major investments both globally as well as domestically. During Make in India Week 2016, the city came up as one of the most sought-after destinations after Mumbai, Pune, Nashik and Aurangabad.

L&T Infotech plans to invest in startups

L&T Infotech, the IT division of Larsen & Toubro, is planning on obtaining board approval for investing in technology startups, which the IPO-bound firm hopes will assist in boosting its digital offerings.

India to register augmented growth of TLC 3D NAND SSDs

According to 6Wresearch, India's SSD market is forecast to reach US\$ 128 million by 2022. Until 2015, data-storage device market was dominated by the hard disk drive (HDD) segment acquiring nearly 90 per cent of the share, though is witnessing year-over-year decline.

Apart from external HDD that currently accounts for over 20 per cent of the overall HDD shipment, internal HDD's demand is further projected to decline owing to market saturation and growing adoption of NAND flash memory storage devices, predominantly SSDs.

Mobile manufacturing to reach 500 million units

Mobile phone manufacturing in India will reach 500 million units in a span of two years with the backing of talent as well as an incentive policy, as stated by telecom secretary, Department of Telecom.

The government is trying to bring down import of electronic products and meet the requirements of the domestic market via indigenous production. It has also received proposals amounting to ₹ 1.13 trillion in the electronics manufacturing segment from popular brands under the modified special incentive package scheme.

Adit Infratel sets up India's first lithium-polymer battery facility

Adit Infratel Pvt Ltd, the company behind brand Advent, has announced the commencement of India's first lithium-polymer embedded battery manufacturing facility at Manesar, Haryana. Involving an overall investment of ₹ 250 million, the initiative is part of company's Make in India strategy to boost local manufacturing, reduce dependency on imports and create large-scale impact on the domestic economy through job and wealth creation.

Calendar of Forthcoming Electronics Fairs/Exhibitions/Seminars/Events

Name, Date and Venue	Topics	Contact address for details
Open Source India October 21-22, 2016 NIMHANS Convention Center, Bengaluru	Premier open source conference in Asia targeted at nurturing and promoting the open source ecosystem in the subcontinent	Open Source India Website: http://osidays.com/osidays/
Mechatronika 2016 December 7-9, 2016 Prague, Czech Republic	Topics include ICT, power electronics, sensors, EMC, actuators, modelling and simulation, robots, industrial applications, military technologies, measurement and diagnostics, bio-mechatronics, among others	Department of Air Defence Systems Website: http://mechatronika.fel.cvut.cz/
IEEE International Conference on Power Electronics, Drives and Energy Systems December 14-17, 2016 Trivandrum, India	The conference provides a platform for discussions, networking and publication of the benefits of power electronics and its allied technologies	Government Engineering College Thrissur Website: www.pedes2016.org
India Electronics Week March 2-4, 2017 Bangalore International Exhibition Centre, Bengaluru	An exhibition for the global electronics industry showcasing concurrently six events: Electronics For You Expo, Electronics Rocks, T&M India, LED Asia, Raksha India and IoT Show	EFY Enterprises Pvt Ltd Phone: +91-11-40596605 Website: www.indiaelectronicsweek.com

Government plans US\$ 1.25 billion renewable energy fund

The government of India is planning to set up a US\$ 1.25 billion fund to finance renewable energy projects in the country. This move will help the country in scaling up clean energy generation from 37GW at present to 175GW by 2022.

State-owned institutions such as Power Finance Corp. Ltd and Rural Electrification Corp. Ltd have already committed a total of US\$ 300 million to the fund.

The proposed target of an output of 175GW of renewable energy assumes at least 100GW from solar, 60GW from wind, 10GW from bio-power and 5GW from small hydropower projects.
