DSLR from Canon

Adding fun to photography

EOS 1300D uses an 18MP APS-C size sensor and DIGIC 4+ image processor. It has abundant auto-shooting features and is compatible with over 70 EF/EF-S lenses, allowing you to take beautiful photos like a pro, regardless of the subject and genre. Wi-Fi and NFC compatibility allows easy file transfer to other devices. The camera features a 860mAh rechargeable lithium-ion battery, with a rated voltage of 7.4V DC.

F&D introduces multimedia Bluetooth speakers

An affordable yet powerful speaker system

F&D A180X features a wide range of connectivity options including Bluetooth 4.0, RCA to pair with TV sets and DVD players, built-in digital FM radio with memory to store up to 100 favourite stations, USB flash drive connectivity and SD card slot to allow convenient access to music playlists, a 3.5mm line-in for connection to portable media players, smartphones, laptops and tablets and control of the speaker system with a fluorescence full-function wireless remote. The product is qualified by SIG certification. Its Bluetooth operation ranges up to 15 metres.

u-JAYS on-ear headphones launched in India

A seamless blend of balanced sound, lasting comfort and effortless aesthetics

Swedish u-JAYS is designed to let the ear cups and ear cushions work together as an acoustic system. In addition to the custom-developed 40mm dynamic speaker with Japanese silk diaphragm, vent holes covered with acoustic tuning filters are evenly distributed 360° around the speaker. This feature optimises airflow through the system, resulting in greatly improved details and a deeper bass response.

The device comes with a full-feature three-button remote in black or white with different metal finishes to match your smartphone and computer. It can be optimised for iOS, Windows or Android. It features 100dB SPL at 1kHz sensitivity, 32-ohm at 1kHz impedance and 10Hz-20,000Hz frequency response. It comes in four colour variants, namely, black on black, black on gold, white on silver and white on gold.

Fitbit Blaze smart fitness watch launches in india

A smartwatch designed with fitness in mind

Fitbit Blaze is a smart fitness watch that helps you maximise every workout every day, with continuous heart rate and simplified zones—all without an uncomfortable chest strap. It features a connected GPS; simply connect Fitbit Blaze with the GPS on your phone to map your routes and see run stats like pace and duration on display. You can start a FitStar workout on your tracker and get step-by-step instructions and coaching right on your wrist.

The watch supports multi-sport modes like running, biking and cardio, uses SmartTrack to automatically recognise and record exercises for you, so you will get credit for a workout even if you forget to log it, gives on-screen summary of each workout after you complete it, has a hi-res colour touchscreen with a variety of faces to choose from, five-day battery life and many more features.
