Indian firm acquires SunEdison's rooftop solar assets

India's Amplus Energy Solutions Pvt Ltd has acquired 7MW solar rooftop assets of the bankrupt US based clean energy giant SunEdison Inc. for an undisclosed sum.

The company said in a statement that the commercial and industrial rooftop projects are located throughout the country and provide power to corporate customers.

Following the acquisition, Amplus said it will operate more than 150 distributed generation and rooftop systems across India.

A bright future for LED bulbs in India

The market for LED bulbs in the country is growing at a very steady pace, and it will not be long before LED bulbs catch up with conventional bulbs. Presently, the ratio in favour of conventional bulbs is 2:1, but this is expected to become 1:1 in the next two to three years.

This was communicated by R. Sundararajan, president and head of the luminaires segment, Bajaj Electricals, when speaking to *Times of India*. He also said that the government promoting the use of LED bulbs is a major boost for the industry.

According to Sundararajan, ever since the Central government started to distribute LED bulbs to households at a reduced price, prices at retail shops have also dropped. Bajaj Electricals had a 35 per cent share of the ₹ 11 billion LED bulb market in 2015-16.

Bajaj Electricals believes that the future for LED bulbs in the country is quite bright, as not only households but the industry segment is also huge. The company expects to grow by another 30 to 35 per cent in the current fiscal year.

Gujarat distributes three million LED bulbs in 19 days

The government of Gujarat has distributed more than three million LED
