VR glasses by Coolpad

Provides widescreen virtual cinematic experience

Cool VR with clip drawer design provides an immersive 3D experience that transports you to a whole new dimension. The innovative design and lenses give a 100-degree field-of-view, providing one of the best virtual reality (VR) experiences. Customisable lenses help in optimising the focal length and object distance, making it comfortable to use for long durations. The glasses work effortlessly with any phone that pans from 12cm to 14.5cm (4.7-inch to 5.7-inch).

It is compatible with Coolpad Note3, Note3 lite, Note3 plus and Max.

HyperX launches gaming headset

For elite gamers

HyperX CloudX comes in a durable silver aluminium frame, and the matte-black finish complements Xbox Elite wireless controller for a stylish matching setup, along with an exclusive hard shell carrying case for protection and convenient portability. Based on HyperX Cloud II design, CloudX offers the same great comfort and fully-immersive audio with 100 per cent memory-foam ear cushions and headband, and crystal-clear sound via large 53mm drivers so you can engage in hours of gaming on Xbox One, Windows, mobile devices and other consoles.

HyperX CloudX has an in-line audio control, allowing you to adjust volume and mute the detachable noise-cancelling microphone right on the cable. Additionally, certification by TeamSpeak and compatibility with Discord, Skype, Ventrilo, Mumble and RaidCall equal an improved chatting experience.

Ambrane India announces 13,000mAh power bank

The stylish power bank

Price
₹ 949

The P1310 power bank is built not just for lasting performance but is also sleek and beautiful, designed perfectly to match the style quotient with its classy colour combinations, namely, white with blue, green and brown, and black with gold and white. Features include two USB 2.0 ports, one micro-USB port and it gives 5V/2.1A max (auto-switch mobile phone-dependent) output.

The portable charger supports up to 3.5 full charges with its super-sized capacity, which means that if you are using a 2500mAh battery smartphone, you will be able to charge it approximately four times with a fully-charged power bank. It can also withstand up to 300 to 500 charge-discharge cycles. With an average 13 hours charging time, P1310 boasts of being compatible with most portable gadgets.

App to measure mobile Internet speed

Telecom Regulatory Authority of India (TRAI) has launched a mobile application, which will help you to measure Internet speed on a smartphone and send results to TRAI Analytics Portal. The application will also send coverage, data speed and network information along with your device and location details.

Indus OS, world's first regional OS

Home-grown Indus OS is world's first regional operating system (OS), which aims to connect 100 million users with the Internet. Indus, set to revolutionise the mobile industry, is built on Android and is designed for first-time Internet users. The crux of a country's culture lies in her language and Indus is in unison with this by bringing to people a simplified smartphone experience in their native tongue. Indus's vision is to build an end-to-end ecosystem that would bridge the digital divide and get the whole country on the information highway, language being the key.

App for storing notifications

Boomerang Notifications app helps store notifications to remind you to do things later. The basic idea is that you activate the app and on receiving notifications, you get the option to put it away in Boomerang until you feel like dealing with them. Boomerang does not work with all notifications, but it works with enough of these to be useful.

Food-scheduling app

Eat This Much is the new food-scheduling app that helps you plan your daily meals. Input your diet goals, weekly budget and the kinds of food you like, and Eat This Much will take care of your meal plans. It requires some manual setting up, but once that is done, you can rely on this app to provide you with recipes and tips that help you achieve your aims.
