

Choose a bench-top SMU that's clearly more efficient.

The B2900A Series is BenchVue software enabled.

Complimentary DSOX2002A Oscilloscope
With the Purchase of a B2900 Precision Instrument

To avail the offer, call 1800 11 2626

The superior GUI on the new Keysight bench-top source measurement unit (SMU) is the first in the industry to display your measurement results graphically. It provides best-in-class output range and source/measurement resolution, along with multiple free software control options, allowing you to choose the solution that best fits your particular application. For the testing speed and efficiency you need to deliver smart technologies to market faster, the choice is clear.

Keysight B2900A Series Precision SMU

Max output range	210 V, 3.03 A (DC) / 10.5 A (Pulsed)
Min resolution	10 fA / 100 nV
Minimum digitizing interval	10 μ sec
