HK Wentworth to open manufacturing unit in India

HK Wentworth, a UK based company that makes protective coatings for electronics and mechanical parts, is planning to open a manufacturing unit in Bengaluru. The company is planning to spend £500,000 to set up the factory. The company already has a manufacturing unit in China.

The new manufacturing unit in India will supply coatings for the country's LED lighting industry, which is set to boom after Modi government's ambitious UJALA programme envisages bringing LEDs to every home.

VMC inks deal with EESL for LED streetlights

Varanasi Municipal Corp. (VMC) has signed an agreement with Delhi based Energy Efficiency Services Ltd (EESL) to replace conventional streetlights with LEDs. The work is expected to be completed within eight months.

EESL has been one of the largest deployers of LED streetlights in many states. Along with installing LED streetlights, EESL will also be taking care of infrastructure requirements by setting up poles and managing wire mazes, wherever required.

According to the contract, EESL has to ensure that 95 per cent of the streetlights will be functioning all the time, and in case this standard is not achieved, the company will have to pay a penalty. The VMC is expected to save ₹ 180 million by deploying LED streetlights.

New policy for solar manufacturing units

In order to encourage local manufacturing, the government is working on a new policy that will provide more rebates and subsidies to companies that start solar manufacturing units in the
