Smartbook from Wacom

Save handwritten paper notes digitally in the Cloud

Bamboo Spark is a smartfolio with a smart ballpoint pen and a spot for your favourite paper. It lets you write by hand and saves your handwritten notes locally or within the Cloud for editing, archiving and accessing anywhere. Start writing with Bamboo Spark smartpen on paper and the smartfolio will store each stroke. Analogue notes are converted to digital instantly, to access whenever you need these with Bamboo Spark app.

Digital camera from Sony

A new world of super-real photography

Sony's high-zooming RX10 II camera has a remarkable advance in photo and movie possibilities—the world's first memory-attached 1.0-type stacked CMOS image sensor. Use it to create stunning 4K movies, up to 40x super-slow motion, spectacular still images and much more.

Pro-grade XAVC S codec ensures beautiful footage with high bit-rate recording, and full-pixel readout without pixel binning achieves high-resolution results. Capture astounding super-real movies with cinematic detail and clarity surpassing human vision.

Ultrabook from Smartron

A high-performance convertible ultrabook

Ultrabook from Smartron has an all-metal unibody, is powered by 64-bit Intel Core M processor with turbo frequency of 2GHz for high-performance apps and low power consumption, a full-size keyboard, day-long battery life featuring 10,000mAh battery, 1000 charging cycles and non-stop ten-hour usage, and 31cm (12.2-inch) multi-touch display featuring finger-print resistant oleophobic coating with 16:10 aspect ratio, which is ideal for productivity and multi-media viewing.

Other features include 128GB SSD storage, 4GB of 1600MHz LPDDR3 memory, 5MP rear-facing auto-focus camera, 2MP front high-definition camera, sensors including accelerometer, gyroscope and hall sensor, Type C (for charging) along with USB 3.0 and so on.

Power bank from Xiaomi

Charge two devices at a time with dual USB ports

The new power bank from Xiaomi comes with a massive 20,000mAh capacity. Its lithium-ion-polymer batteries have high densities of 728Wh/L. The Texas Instruments control chip in the power bank supports rapid charging. It is compatible with 5V/2A, 9V/2A and 12V/1.5A charging, and the power bank takes only three hours to charge 11,000mAh and seven hours to fully charge.

The device weighs 338gm, intelligently adjusts output power based on the connected device and is compatible with a huge range of devices. It is heat-resistant, has anti-slip and scratch-resistance properties, and is housed in an environment-friendly PC + ABS plastic for better comfort.
