Google launches social-sharing app

Google Spaces app is tailored to let users easily share content and commentary, group-messaging style, on any topics they wish. With the app, it is easy to find and share articles, videos and images without leaving the app, since Google Search, YouTube and Chrome come built in.

App from SBI for customers to save time

The new app from State Bank of India, NO Queue, is a mobile based virtual queuing application for customers to book an instant queue ticket for select services at select branches. It will help customers view details such as expected waiting time at a given branch, number of customers waiting and distance to the branch from the point of booking. Once the customer reaches the branch, he or she has to activate the Q-ticket to be serviced immediately, thus avoiding waiting time at the branch.

Microsoft launches enterprise Cloud service

Microsoft has launched a workflow automation Software-as-a-Service (SaaS), Flow, which can create workflows between various apps and services such as Office 365, OneDrive, Dropbox, Twitter and so on. Flow can be used to send notifications, collect data or even synchronise files simply by connecting services with each other without writing even a single line of code.

Remote parenting app from Samsung

Bedtime VR Stories app allows parents to meet their child in virtual reality (VR) to tell a bedtime story using a combination of VR and Voice over Internet Protocol (VoIP). Each story takes about six to seven minutes, and only requires Samsung Gear VR and smartphone for the parent and a special cardboard viewer for the child.

SmarteeFi launches smart power strip

A Wi-Fi-enabled replacement to conventional power strips

SE315A smart power strip lets you can control your appliances from any data network. It gives you the benefit of three smartplugs that can be controlled individually. SmarteeFi Android app allows you to schedule on/off events on individual outlets. This facility makes the device ideal for automation and energy saving.

SE315A circuit breaker switch provides protection to your appliances against current over-load conditions. Surge-protection feature protects your devices and equipment against voltage spikes.

Zebronic launches speakers

Speakers with LED light show

Zen 2.1 speakers from Zebronic have been designed for music and movie enthusiasts looking for that edge of innovation. The sub-woofer comes with 12.7cm (5-inch) low-range drivers, and the satellite speakers are powered by 7.6cm (3-inch) full-range drivers for high performance output. Massive 40-watt RMS monster sound and the pure combination of bass and treble gives an unmatched audio experience. The speakers are equipped with a USB/SD card reader, which supports MP3/WMA dual-format decoding. These also allow users to enjoy up to 100 FM stations.
