For home use, at the most basic level, a printer should be able to print documents and photos without complicating the task. Though the basic printing technology has been the same for several years, add-on features for home printers are changing very rapidly. The market is flooded with different types of printers and it really becomes a daunting task to choose the right printer when it comes to buying.

To start with, you should first decide on the basic technology of printing that is needed. The printer that you need can be a laser or inkjet—the choice depends on the work and requirement of each individual. For home use, wherein you need to print simple text as well as good-quality photos in colour, an inkjet printer is recommended, though the print cost per page is higher. You can go for a laser printer if you need to do a lot of black (mono) text based printing.

Now, should you buy a multi-functional printer (MFP) or just a single-function one?

Seeing the market and the reducing prices of MFPs, it is recommended you go for an MFP instead of an ordinary printer. An MFP, also known as all-in-one (AIO) printer, incorporates the functionality of multiple devices (scanner, copier, printer) in one.

Here is a guide that will help you buy an inkjet printer with wireless connectivity.

Features to look for

Given below are a few features that should help you select the right printer.

Resolution (DPI). An inkjet printer uses small drops or dots of ink to create images or text on paper. Creation of dots is done using electronic chips embedded in print cartridges. These dots are extremely small and are only a few microns in size. The dots can have different colours combined together to create photo-quality coloured images.

Dots per inch (DPI) decides how good the print will be. So, for a good-quality print you should go for a printer capable

SOME INKJET WIRELESS PRINTERS FOR HOME

	Epson L365 AIO Wi-Fi colour Ink-Tank printer	Canon PIXMA MG3670 AIO inkjet wireless printer	HP DeskJet Ink Advantage 3636 AIO printer
			
Price	₹ 15,990	₹ 6395	₹ 5990
Features worth looking at	• Scan, copy, print functions • Max print resolution (colour) of 5760 x 1440 DPI • Manual duplex print • ISO standard print speed of 24734, A4 and simplex, and approximately 9.2ipm (mono)/4.5ipm (colour) • USB 2.0 hi-speed, wireless IEEE 802.11b/g/n interface • Mobile and cloud printing	• Scan, copy, print functions • Max print resolution (colour) of 4800 x 1200 DPI • Automatic duplex print • ISO standard print speed (A4) up to 9.9ipm (mono)/5.7ipm (colour) • Wireless LAN b/g/n, USB 2.0 hi-speed interface • Mobile and cloud printing	• Scan, copy, print functions • Max print resolution (colour) of 4800 x 1200 DPI • Manual duplex print (driver support provided) • ISO standard print speed up to 8.5ipm (mono)/6ipm (colour) • Wireless LAN b/g/n, USB 2.0 hi-speed interface • Mobile and cloud printing
