IoT we GoT this... Wireless Embedded Starts Here!

Dual-Mode Bluetooth Classic 3.0 & BLE 4.2 : BT53	Low Cost Standalone BT Module : BT24	WiFi Standalone IoT Module : WF-43
		
• Bluetooth Classic 3.0 & BLE 4.2, dual mode • Size: 11.5 x 13.5 mm • RF Tx/Rx: +12 dBm, -92 dBm • Supports data and audio applications • Supports Apple iOS, WP2 profile and Android	• Class 1.5, Bluetooth 3.0 • Size: 15 x 20 mm • RF Tx/Rx: +6 dBm, -68 dBm • Supports data and audio applications • Supports Apple iOS/Android	• 802.11 b/g/n • Size: 14.5 x 13.5 mm • Host MCU included • Supports Wi-Fi direct and Soft AP

MC Chemicals

One company. Many solutions.

Adhesives	Dusters + Circuit Coolers	Prototyping Materials
Brushes	EMI / RFI Shielding	RTV Silicones by GE
Cleaners / Degreasers	Epoxies	Solder
Conformal Coatings	Flux + Flux Removers	Specialized Chemicals
Contact Cleaners	Glass + Screen Cleaners	Swabs + Wipes
Desoldering Braid	Lubricants	Thermal Management
	Potting + Encapsulating

MEDI's zero drop solar chargers

MEDI's low cost zero drop solar chargers available from 12V to 120V and 5A to 60A compatible with MEDI's inverter design, also with other inverters.

This micro-controller and MOSFET based design has no diode drop of 0.7V which means very less loss, ideal for solar application.

Special feature : First priority solar charging - when it is charging from solar, it will not charge from mains. Also, when it is charging from solar and battery is nearly full charged, inverter will start working by disconnecting mains bypass. So solar power will go to load through inverter and also charge the battery (online function). When battery reaches reserve charge, inverter will stop and mains will bypass, and battery will be charged by solar. During nights, if battery is not charged from solar, battery will charge from mains but only to a certain percent so the next day battery can be charged from solar.

Efficiency > 99.5%	
12V / 10A = Rs.350	12V / 30A = Rs.550
24V / 10A = Rs.350	24V / 30A = Rs.550

SALE : Buy assorted variety of 100 numbers or more and get 25% off on the total

Technology Transfer of MPPT solar charger up to 2KVA = Rs.1.5 lacs
