

At the pinnacle of success – with broadband amplifiers from the EMC market leader

Up until now, the broadband amplifiers available from Rohde & Schwarz covered the frequency range from 9 kHz to 6 GHz with up to 2 kW output power. The new R&S®BBL200 liquid-cooled high-power amplifier now offers powers up to 10 kW:

- 9 kHz to 225 MHz with 3 kW, 5 kW and 10 kW with high mismatch tolerance
- Efficient liquid cooling for compact installation and quiet operation
- Outstanding serviceability thanks to modular design
