

Calendar of Forthcoming Electronics Fairs/Exhibitions/Seminars/Events

Name, Date and Venue	Topics	Contact address for details
CEF Shanghai 2016 November 8-10, 2016 Shanghai New International Expo Centre (SNEC), China	Topics include electronics and electrical, consumer electronics and information and communications, technology	The Organizing Committee of China Electronics Fair Website: www.chinaexhibition.com
Gartner Symposium/ITXpo 2016 November 15-18, 2016 Goa, India	Helps identify and explore technology and service providers to address specific needs	Gartner Events Website: www.gartner.com
World Robot Olympiad India 2016 November 25-27, 2016 New Delhi	Event for science, technology and education that brings together young people from all over the world to develop their creativity and problem-solving skills through challenging and educational robotics competitions	WRO India Website: www.wrobo.org
Mechatronika 2016 December 7-9, 2016 Prague, Czech Republic	Topics include ICT, power electronics, sensors, EMC, actuators, modeling and simulation, robots, industrial applications, military technologies, measurement and diagnostics, bio-mechanics, among others	Department of Air Defence Systems Website: http://mechatronika.fel.cvut.cz/
CeBIT India 2016 December 8-10, 2016 BIEC, Bengaluru	Innovation expo, powered by technology, with focus on five hot trends	CeBIT India Website: www.cebit-india.com
Mobile Broadband India 2016 December 14, 2016 Courtyard Marriott, Mumbai	Conference for telecoms to learn how to drive India economy and bridge the digital divide	Bharat Exhibitions Website: www.bharatexhibitions.com
IEEE International Conference on Power Electronics, Drives and Energy Systems December 14-17, 2016 Trivandrum, India	The conference provides a platform for discussions, networking and publication of the benefits of power electronics and its allied technologies	Government Engineering College Thrissur Website: www.pedes2016.org
Technovanza 2016 December 23-25, 2016 VJTI Campus, Pune	A techno-management event	Technovanza Website: http://technovanza.org/
CES 2017 January 5-8, 2017 Las Vegas, Nevada, USA	Gathering place for those who thrive on the business of consumer technologies	Consumer Technology Association Website: www.ces.tech
India Electronics Week March 2-4, 2017 Bangalore International Exhibition Centre, Bengaluru	An exhibition for the global electronics industry showcasing approximately seven events: Electronics For You Expo, DIY Expo, Electronics Rocks, T&M India, LED Asia, Raksha India and IoT Show	EFY Enterprises Pvt Ltd Phone: +91-11-40596605 Website: www.indiaelectronicsweek.com
Embedded World 2017 March 14-16, 2017 Nuremberg, Germany	Fair with the focus exclusively on embedded technologies, it reflects the trends in the sector	Embedded World 2016 Website: www.embedded-world.de/en
IoT Summit 2017 March 16-17, 2017 Convention Center, Santa Clara, California, USA	Forum to present and highlight the latest trends, products, applications, development and business opportunities in the IoT	IoT Summit 2017 Website: www.iot-summit.org
China Coil Winding and Electronic Transformer Expo 2017 May 18-20, 2017 Shenzhen Convention and Exhibition Center, China	Professional exhibition for small motor, magnetic material, electronic transformer, coil winding and insulation material	Wise Exhibition (Guangdong) Co. Ltd Website: www.motor-expo.cn/En/

Since this information is subject to change, all those interested are advised to ascertain the details from the organisers before making any commitment.

Rajasthan, Gujarat and Andhra Pradesh have had significant activity and account for 59 per cent of total installations.

India currently has 14GW of solar projects in various stages of development and another 7GW waiting to be auctioned. Solar installations are continuing to grow, even with a slowdown in power demand, a decline in capacity utilisation

among thermal projects, and availability of cheap power on power exchanges across the country.

According to Raj Prabhu, chief executive officer of Mercom Capital Group, "The challenge will come next year when approximately 9GW of solar power is forecast to be installed. Unless the must-run status for solar projects is strictly enforced, we will see some challenges."

Home automation to drive next phase of growth for connected devices in India

Reos, a consumer hardware and software brand from Cube26, has released a survey on 'The IoT In India - What The Consumer Knows and Wants'. The findings reveal that India is currently at an early adoption stage and there is a need to create awareness. As per the survey, merely 22.5 per cent of the consumers surveyed are familiar with the concept of the Internet of Things (IoT), with maximum awareness seen in the 36-55 age group. This shows that there is a huge opportunity for increased adoption.

With advancement of Internet penetration, 65 per cent of smartphone users are connected 24/7 of which 97.2 per cent access the Internet from home. The survey highlights that currently only 21 per cent own IoT/connected devices that include 12 per cent wearables and nine per cent home automation, while 51 per cent are inclined to experience connected devices in the future majority in the home automation segment.

New initiative to boost Digital India programme

Ministry of Electronics and IT (MeitY) plans to deploy a chief information technology officer (CITO) in the various departments that come under the ministries.

As per MeitY's ruling, a CITO will be appointed in 34 departments and ministries. The officer will be answerable to the current IT secretary, Aruna Sundararajan.

Further, to boost the government's Digital India programme, the ministry has proposed to set up a national e-governance academy. A fund of US\$ 74 million (₹ 5 billion) will be set aside for this purpose.

To promote e-governance on a national scale, the ministry has proposed launching a mobile app called Umang. This app will function as a common platform across India for all government-related services.
