

Calendar of Forthcoming Electronics Fairs/Exhibitions/Seminars/Events

Name, Date and Venue	Topics	Contact address for details
Total Telecom Congress October 4-5, 2016 Hilton Canary Wharf Hotel, London	Bringing together e-level and strategically-focused executives from global communications companies to explore the challenges and opportunities of an ever-changing sector	Terrapinn Holdings Ltd Website: www.terrapinn.com
Embedded Systems Conference India 2016 October 6-7, 2016 Nimhans, Bangalore India	Most comprehensive technical conference for organisations and professionals working on embedded systems	ESC INDIA Website: www.eso-india.com
Taitronics 2016 October 6-9, 2016 Taipei Nangang Exhibition Centre, Taipei	Taipei international electronics show	Taitronics 2016 Website: www.taitronics.tw
electronic Asia 2016 In conjunction with HKTDC Hong Kong Electronics Fair (Autumn edition) October 13-16, 2016 Hong Kong Convention and Exhibition Centre, Hong Kong	Display technology, key components for smart devices, PCBs, keyboards and switches, solar and photovoltaic	Hong Kong Trade Development Council Website: https://electronicasia.com
International Conference on Wireless Networks & Embedded Systems October 14-15, 2016 Chikara University, Punjab	Brings together academicians and professionals from universities, research institutes and industries from India and abroad to share knowledge on advancement of wireless communication, wireless networking technology, embedded systems and their applications in the field of engineering/research	Chikara University Website: http://chikara.edu.in/wencon/
COMSOL Conference 2016 October 20-21, 2016 Moverpick Hotel, Bengaluru	Event for multphysics simulation and application design	COMSOL Conference Website: www.comsol.co.in
Open Source India October 21-22, 2016 NIMHANS Convention Center, Bengaluru	Premier open source conference in Asia targeted at nurturing and promoting the open source ecosystem in the subcontinent	Open Source India Website: http://osidays.com/osidays/
Korea Electronics Show October 26-29, 2016	Electronic parts and materials, consumer, ICT, software and mobile apps, IT convergence, 3D and broadcasting	Korea Electronics Association Website: http://www.kes.org/eng
Garner Symposium/ITXpo 2016 November 15-18, 2016 Goa, India	Helps identify and explore technology and service providers to address specific needs	Garner Events Website: www.gartner.com
World Robot Olympiad India 2016 November 25-27, 2016 New Delhi	Event for science, technology and education that brings together young people from all over the world to develop their creativity and problem-solving skills through challenging and educational robotics competitions	WRO India Website: www.wroto.org
Mechatronika 2016 December 7-9, 2016 Prague, Czech Republic	Topics include ICT, power electronics, sensors, EMC, actuators, modelling and simulation, robots, industrial applications, military technologies, measurement and diagnostics, bio-mechatronics, among others	Department of Air Defence Systems Website: http://mechatronika.fel.cvut.cz/
CeBIT India 2016 December 8-10, 2016 BIEC, Bengaluru	Innovation expo, powered by technology, with focus on five hot trends	CeBIT India Website: www.cebit-india.com
Mobile Broadband India 2016 December 14, 2016 Courtyard Marriott, Mumbai	Conference for telecoms to learn how to drive Indian economy and bridge the digital divide	Bhaast Exhibitions Website: www.bhaastexhibitions.com
IEEE International Conference on Power Electronics, Drives and Energy Systems December 14-17, 2016 Trivandrum, India	The conference provides a platform for discussions, networking and publication of the benefits of power electronics and its allied technologies	Government Engineering College Thiruvananthapuram Website: www.pedes2016.org
CES 2017 January 5-8, 2017 Las Vegas, Nevada, USA	Gathering place for those who thrive on the business of consumer technologies	Consumer Technology Association Website: www.ces.tech
India Electronics Week March 2-4, 2017 Bangalore International Exhibition Centre, Bengaluru	An exhibition for the global electronics industry showcasing concurrently seven events: Electronics For You Expo, DIY Expo, Electronics Rocks, T&M India, LED Asia, Raksha India and IoT Show	EFY Enterprises Pvt Ltd Phone: +91-11-40596605 Website: www.indiaelectronicweek.com
IoT Summit 2017 March 16-17, 2017 Convention Center, Santa Clara, California, USA	Forum to present and highlight the latest trends, products, applications, development and business opportunities in the IoT	IoT Summit 2017 Website: www.iot-summit.org

Since this information is subject to change, all those interested are advised to ascertain the details from the organisers before making any commitment.

and enterprise organisations creating new space for security spending as part of their technology budget."

Government departments to receive Cloud services

As part of the exercise aimed at facilitating various e-governance initiatives, the government of India has shortlisted 11 firms including Microsoft India, IBM India, Tata Communications and Sify Technologies for empanelment to offer Cloud services for an initial period of two years. This period could be extended by another year.

Currently, government departments are dependent on data centres of National Informatics Centre (NIC), under IT ministry. NIC has set up national data centres at NIC headquarters, New Delhi, Pune and Hyderabad, and 30 small data centres at various state capitals to provide services to the government. As many as 250 government departments and entities avail the national Cloud services from NIC data centres.

Cloud service providers offer a system wherein data can be stored on a remote server and accessed from there for computing. This does away with the requirement to have on-premise servers and maintenance issues.

Solar rooftop projects to be geo-tagged

The National Democratic Alliance government (popularly known as NDA) in June 2015 enhanced India's solar power target from 20,000MW by 2022 to 100,000MW. Of the 100,000MW, 40,000MW is planned to be achieved through grid-connected solar rooftop projects.

The government believes solar rooftop projects have tremendous potential for generating decentralised and distributed solar power by utilising vacant rooftops of industrial, commercial, residential, institutional and public buildings.

Geo-tagging is a system under which a GPS-enabled device adds latitude and longitude information
