

Inlet

Technical features are:

- IEC C14 power-inlet connector with filter
- Filter standard, medical M5/M80 versions
- Filter capacitors standard class X2, Y2 or class X1, Y1
- Rated currents: 1, 2, 4, 6, 10A (ENEC, CCC) 1, 2, 4, 6, 10, 15A (UL, CSA) at 40°C
- Protection class I and II
- Faston connectors 6.3 x 0.8mm, solder connectors, wire leads, PCB terminal options

SCHURTER Electronics (India) Pvt Ltd
www.SCHURTER.co.in

SOLAR

LED solar light

Some important features are:

- Patented design
- Waterproof and dustproof
- High-quality mono-crystalline silicon solar panels
- SMD LEDs used as light source
- High-performance lithium battery
- Wide-angle detection way makes body movement detection in large angle and longer distance

ILUX Electricals Pvt Ltd
www.iluxelectricals.com

Solar pump

Key features of this solar pump are:

- Fully automatic
- Round-the-clock operation
- Streetlight/homelight from dusk to dawn with motion sensor
- Strong construction
- Lightweight (2.7kg)
- Internal bypass feature for pump protection

MISCELLANEOUS

Hooter

Shavison hooters are available in three sizes: 72mm x 72mm, 96mm x 96mm and 144mm x 144mm. Supply voltages available are 230V AC, 24V DC and universal supply voltage (20 to 240V AC or 12 to 240V DC). Flasher and volume control are its special features. Audio level of all models is 110dB.

Shavison Electronics Pvt Ltd

Power supplies

MORNSUN has released charging power supplies MBP300 and MBP500 series specialised for distribution automation system, which offer ultra-low standby power consumption, active PFC and high efficiency up to 86 per cent. These have standby power consumption as low as 25VA for 14W output power and 40VA for 20W, and meet requirements of DL/T721-2013 standard.

Mornsun Guangzhou Science & Technology Co. Ltd

Smartphone kit

Key features include:

- Provides freedom in hardware interface, building customisable OS and integrating applications with hardware and OS as a complete system solution
- Uses completely open source hardware, software and developmental tools
- Several aspects of OS (Linux, Android, Windows), communication such as wired (SPI, I2C, UART, USB), wireless (GSM, GPS, Wi-Fi, Bluetooth) and sensors, I/O interface provided

Trinity Microsystems Pvt Ltd
www.trinitymicrosystem.com, www.mysmartphonekit.mobileeducationkit.net

School bell timer

Features are:

- Weekly programmable alarm
- Three operating modes: regular, exam and special
- Manual push button
- User-selectable bell: electric (coil) type or electronic sound bell (audio output for PA systems)
- Standalone unit

Teaching platform

National Instruments (NI) has announced NI Educational Laboratory Virtual Instrumentation Suite (NI ELVIS) RIO control module. The control module adds a real-time embedded processor and FPGA architecture to instrumentation, powering NI's most complete hands-on learning solution for power systems, machine control, hardware in the loop and mechatronics design.

Smartcard readers

The new security keypad and smartcard readers, E200NP and E200CP, from XAC Automation Corp., incorporates MAX32550 DeepCover secure MCU from Maxim Integrated Products Inc. These have successfully passed the stringent PCI-PTS 4.1 certification requirements.

Security solution for IoT devices

Microchip Technology has announced an end-to-end security solution for the Internet of Things (IoT) devices that connect to Amazon Web Services IoT (AWS IoT). Microchip and AWS have collaborated to develop this integrated solution to help IoT devices quickly and easily comply with AWS's mutual authentication IoT security model.
