## Power bank from Syska

For the stylish and the restless

Power Tube 26, the new power bank from Syska, comes with 2600mAh capacity. It has LED torch light function, input of 5V, 1A (maximum) DC and battery type 18,650 (cell made by Samsung). When fully-charged, this power bank is capable of charging your smartphone, tablet or other portable devices a number of times.

You can be carefree about using your devices even if you have almost exhausted the battery, as you will be equipped to charge it in no time with this convenient phone charger. You can carry this lightweight and compact power bank with you when you travel, as it barely takes up any space in your bag and is highly functional on-the-go. It comes in four colour variants: white-blue, black-grey, black-blue and black-orange.

## Smartshirt by Arrow

Shirt that connects with your smartphone

Arrow has designed a smartshirt that lets you share business cards, play music, share your social profiles and a lot more, with one single tap.

When you are out on a work dinner and need to share your LinkedIn profile with colleagues, all you need to do is tap your phone on the left cuff of your smartshirt to have a look. You can activate home mode to stay connected and relaxed

without any disturbance, customise your meeting mode by choosing from silent mode, vibrate mode and auto response, to put an end to mid-meeting interruptions, and do a lot more, to ease through the day.

It is made from 100 per cent cotton and comes in a variety of colours to choose from.

## Digital camera by Canon

High-performance all-rounder for professionals

EOS 5D Mark IV is the fourth-generation model of Canon's full-frame EOS camera, and it boasts of maturity and major advancements.

The 30.4-megapixel full-frame CMOS sensor comes equipped with the highly-sought-after dual-pixel CMOS AF. High-speed, high-precision AF is realised not only for stills but also for 4K movie shooting, making pro-level footage a possibility. Thanks to its versatility, regardless of the subject matter, this state-of-the-art DSLR is built to turn a professional photographer's creative ideas into concrete expressions.

## Mobile sound and groove workstation from IK Multimedia

The full-featured, expandable, mobile sound and groove workstation for iOS

SampleTank 2 for iOS is a sample based virtual instrument that allows you to have at your fingertips thousands of sounds from multiple categories of acoustic, electric and electronic instruments—all on your iPad or iPhone. To start with, you can load up to eight simultaneous parts from a selection of 140 included instruments in 16 categories, including piano, drums, bass, guitar, strings, keyboards, synths, organs and more. These instruments can be played in a live setting or when composing with the device interface or an external keyboard or pads controller.

With SampleTank 2, as an iOS user, you now have the power of desktop virtual instruments, with a massive number of over 1900 high-quality instruments and the most advanced sound and groove workstation for the mobile platform.
