mobile Internet market in India. Bharti Airtel, which has a presence in both 3G and 4G markets, is expected to gain from the upcoming boom.

India has 312 million mobile data subscribers, and mobile data penetration in the country is just 31 per cent.

Airport lighting market to touch US\$ 672.2 million

The airport lighting market is projected to grow from US\$ 473.7 million in 2016 to US\$ 672.2 million by 2021, at a CAGR of 7.2 per cent. Airport lights are used to indicate directions to the aircraft during landing, take-off and parking, and are installed on runways, taxiways and aprons.

LED lights dominate the airport lighting market today, and this trend is expected to continue over the next five years, primarily driven by the need for energy conservation at airports and a reduction in maintenance costs.

The in-pavement/inset lights segment is projected to grow at the highest CAGR from 2016 to 2021. This growth is mainly attributed to aviation authorities increasingly adopting lighting comprising more simple technologies and hassle-free maintenance.

Eveready, Surya to supply LED tubelights to government firm

Eveready Industries India and Surya Roshni have received contracts to design and supply external-batten LED tubelights on pan-India basis to Energy Efficiency Services Ltd (EESL), a joint venture between the public sector unions of Power Ministry.

Eveready's total value of the contract will be around ₹ 179.4 million, while Surya Roshni's will be around ₹ 276 million. The contract will be carried out over a
