

ATTENTION

LED Light Manufacturer

Channel Patti For LED Strip

Housing for Tube Light

Housing For Concealed Tube & Casing for T-5

Housing for Wall washer

Housing for LED PLL tube

Panel Light Housing

Round Panel Light Housing

Street Light Housing

SMPS For LED Strip

Housing for Flood Light

Our Product Range consist of the following

- TRIO Dotted Lens, Lens for street light, 1 watt lens.
- Heat Sink for TRIO
- Channel Patti For Epoxy
- Panel Light Housing
- Street light Housing - 12 watt to 150 watt
- Tube Light Housing - T-6, T-8, T-10
- Wall Washer Housing - Ultra Thin, Heavy duty
- Housing for LED PLL Light & Casing for T-5 Tube Light
- Flood Light Housing - 30w, 50w, 60w, 90w
- Led Drivers - 1w-30watt, SMPS for LED Strips.

SMD-Based Projects

While I really appreciate the circuit ideas published in EFY magazine, I would like to see some more advanced and larger projects using surface-mount devices (SMDs).

SMDs are no longer restricted to large production houses. Hobbyists are slowly moving towards SMDs because through-hole component availability for certain type of projects is decreasing.

I would appreciate if you publish articles covering the following:

1. Vendors in various cities who are willing to take up small prototyping orders, along with cost comparison
2. SMD-based do-it-yourself (DIY) projects—from making PCBs for 0402 and 0603 packages to using the right set of tools and procedures
3. Sourcing low quantities of SMD components
4. Entry-level test and measurement equipment for advanced hobbyists, including DIY function-generator, digital storage oscilloscope and logic analyser

Such articles, I believe, would really take EFY to the next level.

B. Dutta
Bengaluru

EFY: Thanks for your suggestions! We invite EFY readers to contribute suitable articles on these topics.

Minor and Major Projects

I am a final-year student of electronics and communications engineering. I need a minor project for seventh semester and a major project for eighth semester. Please suggest a minor project that can be upgraded into a major project.

Sumit
Bulandshahr

EFY: Minor projects' kits are available from EFY associates Kits'n'Spares. Please visit their website at www.kitsnspares.com for more details.

Circuits Online

If I buy a circuit listed in 'Circuits on Sale' section of www.electronicsforu.com

com website, will I get the PCBs or simply the soft copy of the circuit diagram?

Mudit

Through e-mail

□ The 'Circuits On Sale' section seems to have been removed from your website. It is creating a lot of inconvenience.

Gora Bhattachary
Kanpur

EFY: Yes, 'Circuits On Sale' section on www.electronicsforu.com website has been shut down. If you want a circuit that was published in EFY, please mention the title of the circuit, so that we can provide you a link to buy its PDF format.

EFY eZine

Please guide me to download circuits from eZine in EFY's Readers' Corner (ezine.efymag.com) using my subscriber account. Also, how can I share EFY circuits on my Facebook page?

M. Nagasuresh
Through e-mail

EFY: Sorry, we don't allow reproduction of EFY content on websites other than EFY's websites and Facebook page. However, we do publish PDFs of some EFY circuits on electronicsforu.com (Circuit Lab section). You may share their links on your Facebook page.

Automatic Sprinkler Control System

I have assembled the 'Automatic Sprinkler Control System' circuit published in the January issue and found that pin 2 of timer IC 555 should be connected to pin 6.

V. Sai Surya
Through e-mail

EFY: Thanks for pointing out the error. Pins 2 and 6 of IC 555 should be shorted together.

PCBs as Gift

I eagerly wait for EFY magazine every month, as I love to read electronics related articles. I suggest you to gift PCBs of circuit ideas for attracting more subscribers.
