

FLY FAST FLY EASY FLY LIGHT

STMicroelectronics

The widest and most accessible range of Microcontrollers in terms of cost, development environment and performance

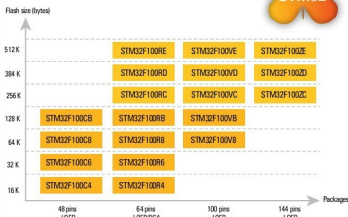

STM8S portfolio

Key Features:

- High Performance STM8 core with 16 CISC MIPs peak @ 16MHz CPU
- 20, 32 and 48 pins available in STM8 Value Line
- Large set of Peripherals: UART, I2C, SPI, 10-Bit ADC, timers
- Volume pricing starts at \$0.25

STM32 Value Line

Key Features:

- High Performance Cortex-M3 1.25 DMIPS/MHz
- Advanced and large set of Peripherals: 7PWM 16-Bit timers, Motor control
- Advanced Analog with 12-Bit ADC and DAC
- Volume pricing starts at \$0.85

Distributors:
Avnet: +91-11-46481100, +91-9818001379, rajatshukra.datta@avnet.com
Yosun: +91-8286506060, +91-9810606001, abhjit_c@yosun.com.sg

STM8/STM32 Discovery Kits, for a quick start for beginners or experienced users, with onboard ST-Link, real time debugger/programmer. Available at attractive prices (in Indian Rupees also).
