

» Acrylics » Aerosol Products » Masking Products »
 Silicons » Synthetic Rubber » Thinners »
 Urethanes » Type AR/UR » Water Based »
 Supplied in a variety of conformal coating solutions that
 deliver protection against » Humidity and
 condensation » Airborne contamination and impurities » The influence of
 severe operating conditions » Common problems associated with lead-free manufacture

CHASE
 Electronic Coatings
 We make a material difference

MILITARY APPLICATIONS
 » Widely specified throughout the defense and aerospace industry » Easy application
 Excellent solvent and chemical resistance » Superb flexibility over wide temperature range

INDUSTRIAL APPLICATIONS

» Ensures reliability in the most hostile environments against moisture,
 resistance against saltspray, corrosive gases & chemicals » Thermal resistance

AUTOMOTIVE APPLICATIONS

» High performance coatings for the world's leading automotive manufacturers
 Complete range of conformal coating solutions for all technical requirements

LOW VOC MATERIALS

Complete range of environmentally friendly UV-curable » Water based »

» Acrylics » Aerosol Products » Masking Products »

Synthetic Rubber » Thinners » Urethanes » UV

Water Based » Type AR/UR » Water Based »

Supplying the most diverse range of conformal coating solutions that deliver protection in all

electronics applications against » Humidity and condensation » Airborne contamination and impurities » The influence of severe operating conditions » Common problems associated with lead-free manufacture

with lead-free manufacture

MILITARY APPLICATIONS

electronics applications against » Humidity and condensation » Airborne contamination and impurities » The influence of severe operating conditions » Common problems associated with lead-free manufacture

The influence of severe operating conditions » Common problems associated with lead-free manufacture

Common problems associated with lead-free manufacture

MILITARY APPLICATIONS

» Widely specified throughout the defense and aerospace industry » Easy application
 Excellent solvent and chemical resistance » Superb flexibility over wide temperature range

Select the best CONFORMAL COATING for your application

...All Chemistries Solutions

Supplying the most diverse range of conformal coating solutions that deliver protection in all electronics applications against:

- » Humidity and condensation
- » Airborne contamination & impurities
- » The influence of severe operating conditions
- » Common problems associated with lead-free manufacture
