

WIRELESS BLUETOOTH SPEAKERS

CREATIVE D200 WIRELESSLY FILLS YOUR ROOM WITH MUSIC FROM YOUR BLUETOOTH-ENABLED PHONE

Cyberstar Infocom has introduced Creative's D200 Bluetooth speaker system that can be used with any Bluetooth-enabled device in the cosy comforts of your room.

Sporting a stylish glossy finish,

the D200 features high-powered digital amplifiers and allows wireless, distortion-free streaming of music. The conveniently placed buttons for volume control and Bluetooth connection enable easy access.

The speaker system works with devices ranging from mobile phones and portable media players to iPhones, iPods, iPads, netbooks, notebooks and just about every Bluetooth A2DP enabled device.

ULTRA-SLIM SCANNER

THE PLUSTEK OpticSlim 2600 IS POWERED FROM YOUR LAPTOP'S USB PORT

Plustek has launched the OpticSlim 2600 flat-bed scanner for home and small business users. This scanner is so slim that business travellers can pack it alongside their laptop and carry it around. Even during travel, they can scan documents and send the digital files back to their head office, corporate office or clients. The only thing they need to ensure is enough power backup in their laptop or notebook.

The OpticSlim 2600 is capable of scanning A4-size documents at an optical resolution of 1200 dpi. It is power-cord-free, and receives power and communicates with the computer using the USB interface.

The OpticSlim 2600 comes with five one-touch action buttons including Copy, OCR, E-Mail, Custom and PDF. Its lid with specially designed hinges makes it ideal for thicker books and 3D object scanning.

REMOTE CONTROL TO LAPTOP

TRANSFORM YOUR LCD TV INTO A LARGE-SCREEN PC WITH AMKETTE'S WI KEY TOUCH

Price: ₹ 2495

For those who are bored of browsing the Internet on their small-screen laptop at home, Amkette has come out with a solution. Just connect the laptop with your LCD TV using an HDMI cable and plug in Wi Key Touch to browse the Internet, watch your favourite Youtube videos and keep in touch with your friends on Facebook on the big-sized LCD screen all the while sitting on the couch.

The Wi-Key Touch works just like a remote control to your laptop. It can also be easily connected with XBOX and PlayStation3 to enhance your gaming experience.

Wi-Key Touch's 2.4GHz RF lets you control your laptop wirelessly from a distance of 10 metres. It also features power management capability, multimedia hot keys and a built-in high-precision multi-touch touchpad. A convenient wrist rest area makes typing easy if you are not sitting on the desk.
