WE'RE EVERYWHERE. FOR EVERYONE!

Circuit Won Me Prize!

I participated in a sub-district level science exhibition where my FM transmitter circuit was ranked second and selected for district-level competition. Please suggest me a good electronics project for another competition.

 Rithun K.
 Calicut, Kerala

EFY: Congratulations! Please visit www.kitsnspares.com website for the project of your choice.

RFID-based Attendance System

I need a project on RFID-based attendance system. Please help.

 Darshan Singh
 Rohtak

EFY: Many RFID-based projects including simple attendance system are available from EFY associates Kits'n'Spares. Please contact them on 011-26371661 or info@kitsnspares.com for details.

Microcontroller-Based Projects

I am a hobbyist and have a collection of EFY issues from the year 1980 onwards. Please start publishing articles for beginners on microcontrollers, programming microcontrollers and simple do-it-yourself projects on regular basis.

 Ashish chowdhury
 Saratpally, Midnapore

EFY: You may refer to *Microcontroller Based Projects* book published by EFY. It is a compilation of EFY tested projects, useful for hobbyists and experimenters. Please contact Kits'n'Spares to purchase the book.

Making of Radios

I have visited many showrooms in search of a portable radio with a powerful signal reception capability but in vain. Kindly give the names of some vendors who manufacture radio as per my requirement. Also, is there any project to help me make my own radio receiver?

 Sirisha
 Bhimavara

EFY: Please visit www.eleb2b.com

website to get contact details of radio receiver manufacturers in India. You may also refer to 'Make Yourself This Hi-Fi Receiver' project published in *Electronics Projects Vol. 9*. Please contact Kits'n'Spares to purchase the book.

Polarity Corrector

I need a project that prevents any change in phase, neutral and earth polarities in a single-phase AC power supply. That is, if there is any polarity change in the supply, there should be no output. Please help.

 Kishor Patil
 Challa, Vapi

EFY: You may refer to 'Power Supply Reversal Corrector-Cum-Preventer' circuit published in EFY Feb. 2006 issue.

Chip-Talk Book

I have great interest in electronics. But I don't know how to assemble the circuits on a PCB, and where to get the PCBs and components?

Judhajit Roy

Through e-mail
 EFY: With *Chip-Talk* book published by EFY you also get PCBs and components to make the circuits. You can go through the circuits in this book and assemble them on the PCBs easily. Please contact Kits'n'Spares to purchase the book.

MSP430 Low-Power Microcontroller

This is regarding 'MSP430 Low-Power Microcontroller' construction project published in EFY Jan. 2009 issue. Please tell me whether MSP430F2013 microcontroller is available locally in India.

 Rahul Sreedharan
 Through e-mail

The author Harinath Renukamurthy replies:

These components are available in India at microcontrollers retail shops. For students, it is recommended that they order from the website of Texas Instruments directly, as they can get one or two free samples for experimentation.
