

All your hard work comes down
to finding one exact part.

We have over 3,500
reliable brands to
choose from.

A world of reputable brands delivered to your doorstep.
Another way Farnell has evolved into element14.

element14 is not just a new name for Farnell, it's an evolution of who we are. Whether by doubling our inventory in Asia Pacific to make it the broadest range of electronic-design centric products in the region, or by using our unique analytical process to make sure we stock the products most-needed in Asia, it pushes the boundaries of what to expect from a distributor. Which is why element14 is the exact partner you need to not only keep up with the industry, but stay ahead of it.

Find out how we help you be in your element at www.element14.com
