17-19 February 2014
ELECTRONICS
FOR YOU EXPO
Hall 2
Stand H12

MILITARY APPLICATIONS
 » Widely specified throughout the defense and aerospace industry » Easy application
 Excellent solvent and chemical resistance » Substrates flexibility over wide temperature range

INDUSTRIAL APPLICATIONS

» Ensures reliability in the most hostile environments
 resistance against moisture, salt spray, corrosive gases & chemicals » Thermal resistance beyond

AUTOMOTIVE APPLICATIONS

» High performance coatings for the world's leading automotive manufacturers
 chemistries for all types of automotive applications

LOW VOC MATERIALS

Complete range of environmentally friendly UV-curable » Water-based » Solvent-based

» Acrylics » Aerosol Products » Masking Products »

Synthetic Rubber » Thinners »

Water Based »

Supplying the most diverse range of conformal coating solutions that deliver protection in all

electronics applications against » Humidity and

impurities » The influence of severe operating conditions

with lead-free manufacturing

Select the best CONFORMAL COATING for your application

...All Chemistries Solutions

Supplying the most diverse range of conformal coating solutions that deliver protection in all electronics applications against:

- » Humidity and condensation
- » Airborne contamination & impurities
- » The influence of severe operating conditions
- » Common problems associated with lead-free manufacture
