

ILLUMINATED KEYBOARD

LOGITECH K800 FEATURES SMART BACKLIGHTING

Logitech has introduced a rechargeable, wireless keyboard delivering bright, precise illumination — day or night. The backlighting automatically adjusts based on the amount of light in the room using ambient light sensors. Motion sensors detect your hands as they approach to turn the backlight-

ing on and to turn it off when your hands move away. As a result, you'll enjoy bright, precise illumination and battery life of up to ten days without recharging.

The keyboard is always ready when you need it, thanks to the micro-USB cable that lets you recharge while you type. Due to the fast, flexible recharging, you'll never need to replace the batteries. The PerfectStroke key system helps make every stroke comfortable and whisper-quiet. And the concave design and softly rounded edges of the durable keys position your fingers properly. Additionally, the letters and characters on the keys are very durable and won't wear off.

HD ENTERTAINMENT LAPTOPS

TURN UP THE VOLUME AND CATCH CINEMA-LIKE EXPERIENCE ON DELL XPS 14 AND 15

Dell's family of new XPS laptops delivers pulse-pounding sound and cinema-like HD video experience using cutting-edge graphics from NVIDIA. These laptops are also claimed to be the industry's first Skype-certified laptops with HD video streaming.

The laptops come in 35.6cm (14-inch) and 38cm (15-inch) screen sizes

and are all 3D TV ready. NVIDIA's 3DTV Play software allows you to connect your Dell XPS notebook to a 3D HDTV and play hundreds of popular PC games in 3D, watch Blu-ray 3D movies, and browse 3D photos and videos in immersive, stereoscopic 3D.

Built-in JBL speakers with integrated Waves MaxxAudio 3 processing technology produce a loud, clear sound, including best-in-class bass with 12-watt subwoofers on the 15 model. Boasting up to 22W peak audio performance, this incredibly clean and clear sound delivers a superb audio experience.

High-performance 1-3GB NVIDIA graphics options power eye-catching HD video capabilities on the HD LED displays. With the available Blu-ray disk drive option, families can enjoy immersive 3D Blu-ray disk movies on a big 3D HDTV screen in their own living room.

SATELLITE LCD TV

VIDEOCON d2h SATELLITE LCD TV
WITH INBUILT SET-TOP BOX ENSURES
NO SIGNAL LOSS

Price: 107cm (42-inch) model: ₹ 59,990

Videocon d2h Satellite LCD TV receives signals directly from the satellite, without the use of any set-top box (STB)—giving you freedom from wires, additional contraptions and multiple remotes. The in-built STB offers perfect picture quality by ensuring no signal loss.

Offering high-definition view and sound, the Satellite LCD comes with a USB port which enables you to watch movies on your LCD. Special technology helps to reduce reflection and refraction of ambient light.

The Satellite LCD offers active games, puzzles and a host of movies to choose from. It comes with 260 channels across music, movies, news, entertainment and education genres.

Available in 16 models from 48.3cm (19-inch) to 106.7cm (42-inch) screen size, the Videocon d2h LCD range is priced between Rs 12,990 and Rs 59,990.
