

Infibeam Phi Android 1.5 Tablet

The Infibeam Phi can be pre-ordered at www.infibeam.com. The slate is available in two versions: an Android Cupcake 1.5 and a Windows CE 6.0 version. The Infibeam website states that the company is working on firmware (programs) that will allow the tablet to be upgraded to newer operating system versions.

The Infibeam Phi tablets sport a 17.8cm resistive touch-screen with a resolution of 800x480 pixels. The Android version weighs 332 gm only and is powered by an ARM9 600MHz processor. The Windows

version is slightly bulkier at 396 gm. It runs on the TCC 800MHz processor. Both Infibeam Phi slates come with 256 MB of RAM and 8 GB of internal memory (expandable up to 32 GB through microSD memory cards). The tablets are Wi-Fi-enabled and provide mini-USB support for connectivity. The Phi slates come preloaded with MS Office for enhanced productivity. The Android slate allows editing in RTF, Text, PDF and CHM file formats, whereas you can edit in Word, PowerPoint, Excel, Text, PDF and RTF on the Windows-based Phi.

OlivePad – VT100

Olive Telecom claims its OlivePad – VT100 to be India's first 3G Android tablet. The 17.8cm OlivePad sports a touch-screen offering a resolution of 800x480 pixels and comes with the Android OS. It is powered by a 600MHz Qualcomm processor. The device is supposed to be both Wi-Fi and 3.5G-enabled. In addition, it provides Flash support, making it easier for you to view videos online. The OlivePad – VT100 is equipped with an integrated 3-megapixel camera (with

auto focus and 4x zoom) as well as a front-facing webcam (useful for video chats). Another notable feature is that you can make calls from this device.

You can connect it to other devices through Bluetooth and a mini USB port. The built-in SD card slot allows you to expand its storage capacity up to 32 GB.

Additional features on the OlivePad – VT100 include GPS (global positioning system) for maps and turn-by-turn navigation, an e-book reader, a G-sensor, a compass, an ambient light sensor and dual speakers.

Champion Computers Wpad Tablet

Champion Computers' WPad 10250 slate-mode tablet with a multi-touch screen interface weighs 1056 gm. It is a Windows 7 tablet and is also Linux-compatible. Powered by an Intel Atom N450 1.66GHz

Price:

₹ 29,990

processor, the device is equipped with 1GB RAM, 250GB hard disk drive, 1.3-megapixel webcam, Wi-Fi and three USB ports.

In addition, WPad lets you browse the Web, use multimedia, do instant messaging and access the world of social networking.

Dell Streak

The Dell Streak is a touchscreen device that not only functions as a tablet PC but also lets you make and receive calls. The Android-based Streak includes a 12.7cm multi-touch capacitive display with a resolution of 800x480 pixels. In addition, it comes powered with Qualcomm's 1GHz Snapdragon 8250 mobile processor and has internal storage of up to
