

Hical Technologies

Hical Technologies is a custom manufacturer with two verticals: advanced electronics manufacturing services (with capabilities for high-level board assembly, cable harness and box-builds) and electromagnetic components (transformers, coils, solenoids and LVDTs). It is focused exclusively on high-reliability segments like avionics, space, defence, medical, automotive and specialty industrial.

The company recently won the UTC Supplier Gold Award from United Technologies Corporation, USA, for consistent on-time deliveries, zero-escapes, a very low ppm-level in defects, a high adherence to lean manufacturing.
