

Introducing,

Intelligent Battery Systems

Batteries that self-diagnose their problems and report to you on their status with no human intervention

Big Benefits on Uptime and Savings on Manpower costs

- Enables early preventive action.
- Ensures maximum power uptime.
- Eliminates unnecessary battery replacement.
- Monitor battery health and status remotely via Internet - get SMS/email alerts on specified threshold values.
- Huge savings on manpower costs as any number of battery banks can be monitored on a single screen.
- Makes warranty tracking easier by storing data like installation date, manufacturing date and battery capacity.

Ideally suited for applications like

- Mission critical data centers & server rooms
- Bank branches & ATMs • Telecom BTS and repeater stations • Power plants and sub stations
- Railway coaches & signalling systems
- Large steel plants • Manufacturing industries
- Solar / alternate energy systems installed with battery banks

- 50 service centers across India
- Part of a Rs.1300 crore group in the IT industry

Congratulations for adding Electronics Bazaar!

I find EFY is an excellent magazine. I have been reading it for the last 25 years since I was a graduate engineering student. Congratulations for adding Electronics Bazaar to it, which again is a must for those looking to know the pulse of the market. I must thank the editor for the vision and EFY Group to make it available to us. It is a great effort to disseminate information of the electronics world.

Buddy Player

The 'Buddy Player For Visually Challenged' article published under Innovation section in May issue is very interesting and useful. I want this player urgently for someone who cannot hear from his right ear. Please let me know the address of the vendor.

S.A. Gudaguntti
Sholapur

EFY: Thanks for your kind words of appreciation for the article "Buddy Player For Visually Challenged!"

Please note that the device is meant for visually challenged people. We are not sure how relevant it will be for the person. However, you can seek more details about the device by contacting the Trust that sells the device. The contact details are as follows:

Saksham Trust, 486 Double Storey, New Rajinder Nagar, New Delhi 110060; phone: (011) 42411015; e-mail: info@saksham.org; web: www.saksham.org

Design Your Career On a Tiny Wafer

I congratulate EFY team for the excellent article on 'Design Your Career On a Tiny Wafer' in April issue. It is well-researched and gives a realistic

portrayal of job opportunities in the semiconductors industry. We are putting it up on the ISA website.

Poornima Shenoy
President, India Semiconductor
Association, Bengaluru
EFY: Thanks for the feedback!

EFY CD Discontinued!

EFY has discontinued the CDs. Please let me know from where I can get the software for the current issue that was provided in the CDs earlier?

Dhruvit Kakkad
Through e-mail
☐ We miss CD material. Please upload it on your website regularly so that we can download it when required.

Biswajit Nath
Through e-mail

EFY: Thanks for your feedback! We have discontinued bundling EFY CD disk but you can visit www.efymag.com and download the software related to PCB designs, computer utilities and fun stuff/games.

EFY Online: eZine

I am an EFY subscriber since April 2009. I do not receive EFY on time. Now you have started the online eZine facility and the eBook is available in .pdf and flash (.swf) formats. How can I read the book in offline mode?

Prabir Bera
Through e-mail
☐ I want to save the eZine magazine to my PC as I cannot access Internet every time. Could you provide the .pdf of the entire magazine in a sequence (not section wise)?

Rishabh Bansal
Punjabi University, Patiala
☐ I am very happy that you introduced the new concept for EFY magazine. I really appreciate your work. It's very useful for engineers like me to access EFY magazine at any time. I am a regular subscriber to EFY magazine and most of the time I receive my copy very late. I think this online concept solves my problem to some extent.

Jignesh D. Basopia
