FUJIFILM'S FINEPIX X100 CAMERA COMES WITH A HYBRID VIEWFINDER

Fujifilm has introduced 12.3MP FinePix X100 digital camera with what the company claims to be the world's first hybrid viewfinder—a combination of two different kinds of viewfinders (those found in high-end film cameras and digital compact cameras).

The retro-look camera has 23mm

Price: ₹ 66,999

Fujinon lenses, large-sized APS-C/CMOS sensor and EXR processor. X100 also offers the ability to shoot high-definition movies.

SPEAKER

LOGITECH'S STEREO SPEAKER Z110 CUTS THE CORD-CLUTTER WITH USB

Logitech has launched a compact no-wall-outlet-requiring speaker which connects with, and powers through the computer's USB port.

The compact Stereo Speaker Z110 connects to any audio source that uses a 3.5mm plug, such as the headphone jack on MP3 player.

The user-friendly stereo speakers keep desks neat without the clutter of unsightly cords while their compact size lets you fit them into any bag, or easily move them from room to room.

SMARTPHONE

THE HTC WILDFIRE S WITH EASE OF USE IS AN ALL-ROUND MULTIMEDIA DEVICE

HTC Corporation has launched the HTC Wildfire S. Powered by Android operating system, the smartphone features HTC Sense—a customer-focused user-experience.

The compact 8.1cm (3.2-inch) HVGA display smartphone is one of HTC's smallest phones ever—measuring just 10.1cm long and 5.9cm wide. The phone's home-screen is fully customisable with your favourite apps, widgets and content. A 5-megapixel colour camera with auto focus, expandable microSD memory and

support for a variety of audio and video formats make it an all-round multimedia device.

KEYBOARD-MOUSE COMBO

ZEBRONICS' WIRELESS COMPANION 2 KEYBOARD-MOUSE COMBO INCORPORATES SMART POWER MANAGEMENT TO INCREASE BATTERY LIFE

Zebtronics has introduced a wireless keyboard-and-mouse combination—Wireless Companion 2.

The compact keyboard-mouse combo, based on 2.4GHz wireless technology, has a long range of up to nine metres. The keyboard is multimedia-type with thirteen multimedia function keys on top and

requires an AAA battery. The mouse has an 800dpi high-precision optical sensor and it works with two AAA batteries.

Single receiver for both devices connects them to the USB port and smart power management integrated in both keyboard and mouse help increase the battery life.
