Zomato.com's food-search app

Need to locate a food-joint near your place? Do it with Zomato.com's new mobile application for iPhone, iPad and iPod Touch. The application allows users to search nearby restaurants based on the user's location. Available for free on the iTunes store, the application replicates all features of the website and lets the user look at the menus, contact details, reviews, photographs, locations and discounts for restaurants on the phone itself.

Navigation app for Android platform

NAVIGON AG has released its NAVIGON MobileNavigator app for the Android platform powered by NAVTEQ map data. The on-board navigation app turns Android smartphones and tablets into navigation devices comparable to standalone units. Among many significant functions, NAVIGON's MobileNavigator includes NAVTEQ map data of India on-board, text-to-speech, lane assistance and speed warnings.

TuneWiki for music lovers

Hungama and South Asian entertainment content have launched TuneWiki application that provides real-time, subtitled lyrics for users' stored library of music and music videos. It connects music lovers with lyrics—subtitled and translated through a wiki which features more than 600,000 contributors. Users can sing along with streaming lyrics and can also access and download music from the Hungama storefront.

Online movie viewing service

Bharti Airtel has launched Airtel Movies—an on-demand online movie viewing service with original DVD quality content. The service, available to Airtel broadband customers, is powered by BigFlix. With this, customers can enjoy over 500 movies along with 100 TV shows, 100 trailers and 100 music videos. The service can also be accessed on WiFi and movies can be enjoyed anywhere in the house.

LED MONITOR

BENQ'S EW2430V MONITOR OFFERS PERSONALISED AUDIO-VISUAL EXPERIENCE

Price: ₹ 17,200

BenQ has unveiled its EW2430V Vertical Alignment (VA) LED monitor.

The 60.96cm (24-inch) monitor's

LED panel features a contrast ratio of 3000:1 for added depth and definition, and also minimises light-leakage. Equipped with dynamic contrast ratio of 20,000,000:1, it enhances the details and colour contrast.

The monitor's true 8-bit panel provides a range of 16.7M colours, presents saturated vividness and smoother colour transitions in every image.

It offers full HD connectivity with HDMI to all kinds of devices like HD DTH, Blu-ray disc and DVD player.
