

differential-output clock oscillators cost lower and have lower phase noise than phased-looked loop design of the same frequency. These 'K'

series oscillators have a frequency range of 40 to 200 MHz and are available in 2.5V/3.3V supply voltages and 5×7mm²/5×3.2mm² ceramic SMDs.

STORAGE

Desktop hard drives

Simmtronics Semiconductors has rolled out 8.9cm (3.5-inch) hard disk drives in storage capacities of 80 GB, 120 GB, 160 GB, 250 GB, 320 GB, 400 GB, 500 GB, 750 GB, 1 TB, 1.5 TB, 2 TB and 3 TB. These drives for desktop computers are available in both SATA and PATA formats.

1TB portable hard drive

Transcend has unveiled a 1TB USB 3.0 portable hard drive.

The StoreJet 25H3P has transfer speeds of up to 90 MB/s, a one-touch auto-backup button and a three-stage shock protection system. It comes

with Transcend Elite data management software allowing users to keep their digital content organised, protected and up-to-date.

The hard drive comes in a shock-resistant silicon casing and has an internal hard drive suspension damper as the last line of defence.

POWER

Power supply unit for PCs

ADATA has launched BN series power supply units for personal computers that offer up to 85 per cent efficiency

and 95 per cent active power factor correction. These power supplies come in 400W, 450W, 500W and 550W models. All models meet both European energy-using products' directive and American Energy Star 5.0 standard.

Home UPS

PEPTELLER has launched a multi-purpose, low-cost digital home UPS

with MPPT solar charger. The PQ 250S offers 200W output and runs on a 40 Ah/65 Ah battery. Its in-built 5A battery charger

can charge the battery using either grid supply or 75Wp solar panel.

The UPS provides sufficient output to run one fan, two CFLs and one TV, and its quick changeover ensures long back-up for computers during power cuts.

TEST & MEASUREMENT

Universal tester

Minmax has introduced a universal tester that can measure 1μH-900mH inductance, 0.01-4700μF capacitance and 10-64-kilo-ohm resistance.

The MME-UT 20 has a 40×2 backlit LCD, 24-key membrane keypad, 20-pin ZIF socket for testing ICs and component holders for

diodes, transistors, regulators, inductors, capacitors and resistors. It also has a built-in 8051 kit to develop and test programs, RS232C serial interface for test library expansion and a compact table-top unit operating off 230V AC.

Ring sensor for line production monitoring

PG Electronics has introduced a ring sensor for monitoring uninterrupted production of ferrous rods, wires and strips.

The RS-101 operates off 6-30V DC with logic NO or NC output enough to drive a relay coil. A sensitivity adjustment provision allows adjustment of the operating
