Haryana, will contribute to the company's business expansion in the growing Indian market with efficient R&D tailored to local needs.

"One of the focus areas for the centre will be to develop products relating to the future needs of the Indian market. The PRDCI will also be looking at developing energy management and AV products for business expansion in India and promote open innovation with Indian universities and companies to create new business," said Ron T. Kakimoto, director, PRDCI.

The company further plans to build a full-scale manufacturing fa-

cility called Panasonic Techno Park in Jhajjar, Haryana, in the fiscal year ending March 2013.

Tata Power commissions largest solar plant

Tata Power has commissioned India's largest solar plant at Munshi in Maharashtra. The electricity generated by the system will be distributed in Mumbai in order to meet a renewable energy purchase obligation as defined by Maharashtra Electricity Regulatory Commission.

The 3MW solar power plant is spread over twelve acres and took nine months to complete. BP Solar
