

BLUETOOTH HEADSET

HIP STREET'S HSLITE WITH NOISE REDUCTION AND ECHO ELIMINATION IS IDEAL FOR CALLS ON THE MOVE

Hip Street has launched a compact, lightweight Bluetooth headset with noise reduction and echo elimination.

The HSLITE is ideal to take calls on the move in complete comfort and style, supporting various functions like call waiting, call ignore, voice dialing and redial.

You can wear the mouse with an ear-hook or ear-gel. The mouse also has the versatility to be used in either of the ears. It is compatible with other Bluetooth devices for Skype and MSN messenger and can also be easily connected to mobile handsets. In addition, it comes with a lithium polymer battery giving up to six
