Renesas Electronics Corporation.

The company is targeting industrial, consumer and automotive segments in India. Over a hundred new products will be developed specifically for these markets.

Samsung to increase its market share

Samsung plans to introduce about 45 new handsets in the Indian market this year. Starting from Rs 8000 onwards,

most of them will be smartphones and touchscreen devices. Moreover, to increase its market share in India from 22 to 32 per cent, Samsung is all set to increase its manufacturing capacity at the Noida facility.

After smartphones, the company is planning for more tabloid launches. The tabloid will have phone as well as computer functionality with touchscreen, camera and other smartphone features.

Samsung has merged its business-to-business services for IT and mobile devices with an aim of increasing its revenue from \$38 million to \$100 million this year.

Epson to achieve Rs 5-billion turnover

Commemorating 20 years in India, Epson has announced that it is likely to achieve a turnover of Rs 5 billion this fiscal (2010-11)—a growth of 25 per cent from last year's turnover of Rs 4 billion.

The digital imaging solutions company is targeting the Rs 10 billion crore mark by 2015. With an eye on the turnover figure in 2015, it will target segments like home and office, education, health, government, small and medium enterprises, retail and photography to drive the numbers. With an increased focus from Epson Japan on the Indian consumer, new products are expected to be launched.

Amkette's new corporate positioning and logo

Amkette has undergone a makeover with its new corporate positioning and logo in keeping with its diversification into digital lifestyle and other product categories.

The storage and IT peripherals company has adopted 'Digital Life Redefined' as its new positioning statement as it defines the company's new focus on enhancing the digital experiences of consumers and segregated its business into five distinct product categories including lifestyle products, flash media, storage media, computer peripherals and digital efficiency products.
