IEEE Academic Project
for final year Students
with selected Courses

Real-Time Embedded Job Oriented Training Program

100% placement assistance will be provided for each student.

Wind River Authorised Training Center, Everest Infocom is pleased to announce a diploma in advanced Embedded system design, for fresh BE/Btech/MCA/BSc/ Diploma. The training program covers: ARM 9/11 Realtime Embedded systems, VxWorks 6.5, WindRiver Workbench, Windriver Linux, Embedded Communication protocols, Realtime UML, Device Driver programming, BSP development, Porting Embedded linux, GTK, Gstreamer, QT, Mobile application development, Selection process includes written test and Interview

#	Course	Duration	Schedule	Fee	Registration
1	Advanced Diploma in Real-Time Embedded System Design	3 Months	Starts from 18th & 25th, Mar 2011	₹ 19,720	Open
2	Advanced Diploma in Mobile Application Development	2 Months	Starts from 17th 24th, Mar 2011	₹ 15,720	Open
3	Android Application Development Course	5 Days	Starts from 14th 21th, Mar 2011	₹ 20,000	Open
4	Robotics Course	6 Days	Starts from 28th Mar 2011	₹ 8,720	Open

Professional / Certified Training Program

Certification from Wind River

#	Course	Duration	Schedule	Fee in ₹	Registration
1	VxWorks 6.x and Workbench Fundamentals	4 days	25th, 26th, 27th & 28th of Mar 2011	Professionals 45,000 Academicians 35,000 Students 30,000	Open
2	Wind River Linux and Workbench Fundamentals	4 days	1st, 2nd, 3rd, & 4th of April 2011	Professionals 45,000 Academicians 35,000 Students 30,000	Open
3	Real-Time Programming for Embedded Systems	2 days	7th & 8th of April 2011	Professionals 30,000 Academicians 25,000 Students 20,000	Open
