

TALKING BOOK

BEDTIME STORIES COME ALIVE WITH IKEN ZING SERIES INTERACTIVE BOOKS FROM MEXUS

Mexus Education, an education innovations company, has launched interactive touch-read books for children in the age group of 3-7 years.

The Iken Zing series helps in captivating kids' attention and arouses the desire to know more. With both audio and visual teaching aids, it reinforces effective learning.

Scroll or touch the text and the images of the book pages with the help of a pen-shaped audio-tool as it 'talks' and emits relevant sounds. The colourful striking visuals accompanied with the audio make story characters come alive.

Iken Zing learning series introduces concepts on alphabets, numbers, time, seasons, shapes, colours, etc. It even exposes the children to phonetics to aid pronunciation.

The Iken Zing starter pack comes with two Iken Zing storybooks, a Zing reader, the manual and other accessories.

Price: ₹ 2499 - 5487 (for startup kit)
₹ 249 (for add-on book)

NEW SMARTPHONES

DELL VENUE AND VENUE PRO PROVIDE ENTERTAINMENT, PRODUCTIVITY AND SOCIAL NETWORKING

Dell has expanded its mobile portfolio with the launch of Venue and Venue Pro smartphones.

Venue with Android 2.2 is a one-touch, 3.5G smartphone providing instant access to keep you on the go. It is elliptical in form and has a high-contrast 10.4cm (4.1-inch) AM-OLED display with curved and scratch-resistant glass. The smartphone has a preloaded Dell Stage user interface and 8-megapixel camera to quickly capture and share pictures. It also comes equipped with business features including support for ActiveSync and QuickOffice.

Venue Pro is Dell's first Windows Phone 7 smartphone and features a portrait-layout sliding QWERTY keypad and a 10.4cm AM-OLED touch display. It comes with XBOX Live and preloaded work/life applications. Its 5-megapixel camera, high-speed 3.5G

Venue: ₹ 29,990
Venue Pro: ₹ 34,990

wireless and cloud-based services make it easy to keep in touch, share experiences and enjoy music, movies and more.

HIGH-RESOLUTION CAMERA

FUJIFILM'S 14-MEGAPIXEL FinePix AV200 CAPTURES CLEAR IMAGES WHATEVER BETHE SHOOTING CONDITIONS

Price: ₹ 5499

Fujifilm India has come out with a feature-packed camera that is apt for beginners who want a simple point-and-shoot option.

The FinePix AV200 has high-resolution sensors and combines Fujinon optics with high sensitivity settings to deliver sharp and clear images in any shooting condition. It also has a 3x zoom and digital image stabilisation technology to compensate for image blur caused by a shaking hand or subject movement.

The camera provides full HD photos and 720p HD movie capture. It is also loaded with various other intuitive features like auto scene recogni-

tion mode, which intelligently detects the scene type and shooting conditions and optimises the focus, exposure and white balance to achieve perfect results. There are 21 pre-programmed scene modes to choose from.
