

Introducing,

Intelligent Battery Systems

Batteries that self-diagnose their problems and report to you on their status with no human intervention

Big Benefits on Uptime and Savings on Manpower costs

- Enables early preventive action.
- Ensures maximum power uptime.
- Eliminates unnecessary battery replacement.
- Monitor battery health and status remotely via Internet - get SMS/email alerts on specified threshold values.
- Huge savings on manpower costs as any number of battery banks can be monitored on a single screen.
- Makes warranty tracking easier by storing data like installation date, manufacturing date and battery capacity.

Ideally suited for applications like

- Mission critical data centers & server rooms
- Bank branches & ATMs • Telecom BTS and repeater stations • Power plants and sub stations
- Railway coaches & signalling systems
- Large steel plants • Manufacturing industries
- Solar / alternate energy systems installed with battery banks

- 50 service centers across India
- Part of a Rs.1300 crore group in the IT industry

Career in Chip Design

I congratulate the EFY team for the article 'Design Your Career on a Tiny Wafer' published in April issue. It is well researched and gives a realistic portrayal of job opportunities in the semiconductor industry. We are putting it up on our website.

Poornima Shenoy
President, India Semiconductor Association

EFY: Thanks for the appreciation!

Industrial Training

My son, an electrical engineering student at IIT, wants to undergo industrial training in electronics. Where can I get the details of companies engaged in the manufacture of electronic components (chips, etc) and products?

Col. Rajnish Bhatia
Through e-mail

EFY: We have an online directory of electronics organisations based in India (URL: www.eleb2b.com) where you can search organisations by their location and the products they deal in. You will find here details of thousands of electronic product manufacturers, but at present there is no firm manufacturing semiconductor chips in India.

'First Look' Products

Please give me the contact details for the following products published in April issue under 'First Look' section:

1. Multimedia Speaker System by Tech-Com
2. MP3/FM/Mobile Player by S.R. Enterprises

Habib Rahuman
Through e-mail

EFY: You can reach them at:

1. Tech-Com - Phone: +91-011-26428541/41618544; E-mail: media@techcomindia.com
2. S.R. Enterprises - Phone: +91-022-25622037; E-mail: power@sreindia.com

Motion Sensor for Security Light

In the 'Motion Sensor for Security Light' circuit published in EFY Sept.

2010, can we add a buzzer along with light? If yes, how?

Deepthi Singavarapu
Vijayawada

The author George Varkey replies:

If you have a 230V AC buzzer, you can connect it in parallel with the bulb. Whenever the light turns on, the buzzer too will sound alarm.

Secure Digital Access System

Regarding the 'Secure Digital Access System Using iButton' project published in EFY Nov. 2010, I have following doubts:

1. How to check the output. Is it visible on the hyper terminal or indicated only by sounding of the buzzer?
2. How to connect iButton to my project? Should I use a socket for it or touch iButton directly with the two wires coming out of the PCB?

Please help.

Swapnali Veer
Through e-mail

The author Chirutkar Harshadkumar G. replies:

1. The data from iButton is accessed by the microcontroller using BASCOM program. Check the datasheet of DS1990A for some special commands that are given to iButton for reset, read and other operations. These special commands will give you the output as a unique address from iButton. This address is stored temporarily in an array in the program and then compared with the preprogrammed unique address. Based on the comparison result, a buzzer sounds and simultaneously the relay energises.

2. Use of a 3.6V PCB-mountable coin button cell holder is recommended. You can touch the holder with iButton momentarily. Check the article for proper connection of the cell holder in the circuit.

Circuit to Drive Away Birds

Where can I get the circuit to drive away birds at airports?

Ashish Kawdia
Surat

EFY: Readers are invited to contribute a suitable project on the same.
