COMPUTING

Box PCs

Kontron has come up with two fanless, ultra-compact embedded box PCs that feature a range of industrial interfaces.

The 51×250×140mm³ CB511 is powered by 1.6GHz Intel Atom N270 processor, Intel 945GSE embedded chipset

and up to 2 GB of DDR2 RAM. It is designed for the extended temperature range of -15°C to +60°C.

The 75×350×260mm³ CB753 offers high performance for data-intensive applications with a 2.26GHz Intel Core 2 Duo Mobile P8400 processor, 1066MHz FSB and up to 8 GB of DDR3 RAM. It features two PCI extension slots and a PCI Express mini card slot for flexible configuration, making it ideal for a wide range of OEM applications.

H61 motherboard

Simtronics Semiconductors has launched an Intel H61 chipset based motherboard.

The SIMM-INT H61 (V1) is based on Intel LGA1155 CPU i3/i5/i7 CPU series, consisting of Intel H61 chipset, with DDR3 memory support expandable up to 8 GB. It supports 6-channel audio and features built-in Intel GMA HD graphics,

RTL8111E 1000Mbps integrated LAN and ALC662 HD audio codec.

Gaming motherboard

ASUS has added a limited edition model to its Republic of Gamers series of motherboards.

The Rampage III Black is based on Intel X58 Express chipset and supports LGA1366 Intel Core i7 processors with integrated memory controller

to support three-channel (6 DIMMs) DDR3 memory. It also supports Intel QuickPath Interconnect with a system bus of up to 6.4 GT/s and a maximum bandwidth of up to 25.6 Gbps.

The motherboard supports up to four graphics cards in a three-way SLI or CrossFireX configuration.

STORAGE

External hard drives

Buffalo Technology has unveiled the power-packed DriveStation Duo external hard drive in two variants – HD-WLU3/R1 series with USB 3.0 interface and HD-WLSU2/R1 series with USB

2.0 and eSATA interface. Offering an easy RAID configuration, it provides a speed of 5.0 Gbps for USB 3.0, 480 Mbps for USB 2.0 and 3 Gbps with eSATA interface.

The DriveStation Duo is compatible with Windows Server 2003/2008 and pre-formatted with RAID1 for immediate use. It comes with Buffalo Tools to boost the workstation's performance and monitor the digital life of Windows users. It also features an eco manager mode that reduces the power consumption by up to 80 per cent.

Mobile hard drives

Hitachi Global Storage Technologies (Hitachi GST) has announced a 5400-rpm hard drive called 'Travelstar 5K750.'

The 375GB/platter, 6.3cm (2.5-inch) hard drive comes with an 8MB buffer and a Serial ATA 3Gbps interface for fast data transfer. It consumes only 0.5 watt during idle mode and 1.4 watts during read/write operations, which contributes to a longer battery life in notebooks and other unplugged applications.

Built in a standard 9.5mm two-disk design, the drive comes in 500GB, 640GB and 750GB capacities and offers a non-operating shock at 1000G/1 ms to protect against bumps and rough handling in mobile environments.
